

ECHOMASTER

MON-50-DM

5" Dash Mount Digital Slim TFT/LCD Monitor

Extend your view with an easy to mount slim LCD monitor.

This easy-to-install dash mount dual input monitor is perfect for quick installation. The dual video input allows you to pair it with up to two safety cameras, providing a much-expanded view of your car's surroundings. Featuring a crisp high-resolution display, you can maintain visibility of obstacles and hazards that might otherwise be obscured by blindspots and poor visibility. The 5" monitor is a perfect size for maximum visibility, while taking up a minimal amount of space.
