Essentially, HALL OF FAME 2 REVERB's incredible MASH technology adds an expression pedal to a world-class reverb stompbox that not only responds to your touch and saves precious pedalboard space – but blends the celestial world of reverb with the ultimate in personal expression. Add a scintillating new Shimmer effect, and you've got a reverb pedal unlike any other – the awe-inspiring HALL OF FAME 2 REVERB!

## MASH – Heart of Innovation

The HALL OF FAME 2 REVERB features groundbreaking new technology that brings a wide range of creative expression to the party, controlled solely by how much pressure you apply to the depressed footswitch. Years in the making, and only available in select TC ELECTRONIC products, this clever innovation elevates the common footswitch well above rather mundane duties, such as “On” and “Off”. More importantly – MASH elevates your performance to the next level.
