## Monitor Desk Mount For Large Monitors with VESA 200 Pattern

Mount-It! Monitor Desk Mount For Large Monitors With VESA 200 Pattern offers a flexible and versatile mounting solution that fits a large variety of VESA patterns. Most monitor mounts offer 75x75 or 100x100 bolting patterns, which might be too small for larger monitors with 34, 38 and 42 inch screen sizes.

With the included extension arms, this monitor mount will fit larger monitors, as well as ultrawide models.

Full motion design allows tilt up and down, swivel left and right, as well as height adjustment, making it easy to find the perfect viewing angle for more ergonomic setting.

- Universal single monitor mount
- Height adjustable, swivel, and tilt
- Heavy-duty clamp or grommet base
- Removable VESA plate

**DESIGN.** Ideal for home and office.

**ERGONOMIC.** Provides healthy set up.

**PREMIUM QUALITY.** Built to last.
