

## **STREAM DECK**

### **EVOLVE YOUR CONTENT.**

You're creating quality content backed by the best tech on the planet. But you want to do more. With Stream Deck, trigger unlimited actions via 15 LCD keys. Take control of your content. And focus on what matters most: your audience.

Use the Stream Deck app to drag and drop actions onto keys, personalize them with custom icons, and switch between distinct profiles for your different games and apps. When it's showtime, tap to switch scenes, launch media, tweet your feats, and more. You can even level-up your onscreen antics with GIFs, images, videos, and audio. Traditionally this level of control was exclusive to mainstream entertainment broadcasters. Now, it's at your fingertips.

Gone are the days of navigating myriad windows to trigger an action, and relying solely on automated plugins to expand your production value. Now, you hold the power to pioneer a new era of content creation, and lead your audience to uncharted frontiers of inspiration. Now, you're in control.
