SLIDE AND CONQUER

STAY IN FRONT OF THE DARK

Get the industry's first flashlights with a tail switch that has an embedded battery status indicator to stop guessing in the dark. Also, with the 5050R's built in USB (Output) and Micro USB (Input) ports, you'll get a full charge for your flashlight or emergency back-up power for smart phones and other electronics. Reload the 5000, 5010 and 5020 flashlights with fresh alkaline batteries to see the job through.

5050R flashlight features built-in USB and Micro USB ports

THUMB THROUGH DECAF TO EXTRA CAFFEINATED LED POWER

Low, medium, high, flashing or boost mode options let you switch to the best light intensity, from low lumens that are easy on the eyes when up close, to super-bright intensity for reaching way out in the dark. And with the type II hard anodized finish, the 5 Series flashlights are as tough as they look.

LED POWER: TOOLS WITH VERSATILITY

PELICAN™ 5000 FLASHLIGHT

Slim design with tough steel clip, mounts to pockets or fits in tight spots for quick access.

BEAM DISTANCE//
Up To: 69m

LUMENS//
Up To: 202 Lumens

MODES//
High / Low / Flashing

BATTERIES//
2 AAA Alkaline Batteries
(Batteries Included)

PELICAN™ 5010 FLASHLIGHT

Get the best of both worlds. The 5010 is our medium sized flashlight that gives you the lumens, run time and size of the 5000 slim design, with the juggernaut performance of the 5050R flashlight.

BEAM DISTANCE//
Up To: 184m

LUMENS//
Up To: 392 Lumens

MODES//
High / Low / Flashing

BATTERIES//
2 AA Alkaline Batteries
(Batteries Included)

PELICAN™ 5020 FLASHLIGHT

When you need extra beam distance, go with the 5020 flashlight. With up to 250 meters of beam distance and up to 586 lumens of LED brightness, you'll have enough light to see the full length of your facility.

BEAM DISTANCE//
Up To: 250m

LUMENS//
Up To: 586 Lumens

MODES//
High / Medium / Low / Flashing

BATTERIES//
4 AAA Alkaline Batteries
(Batteries Included)

PELICAN™ 5050R FLASHLIGHT

Get power for extra long shifts and your smartphone. Recharge the 5050R by connecting directly to its Micro USB port and get up to 40 hrs of runtime (on low power setting). The 5050R doubles as a portable charger (or power bank) for your smart phone with a USB power output.

The 5050R: it's our rechargeable option with flood to spot beam technology.

BEAM DISTANCE//
Up To: 201m

LUMENS//
Up To: 883 Lumens

MODES//
Boost / High / Low / Flashing

BATTERIES//
Lithium Ion Rechargeable Battery (Included)
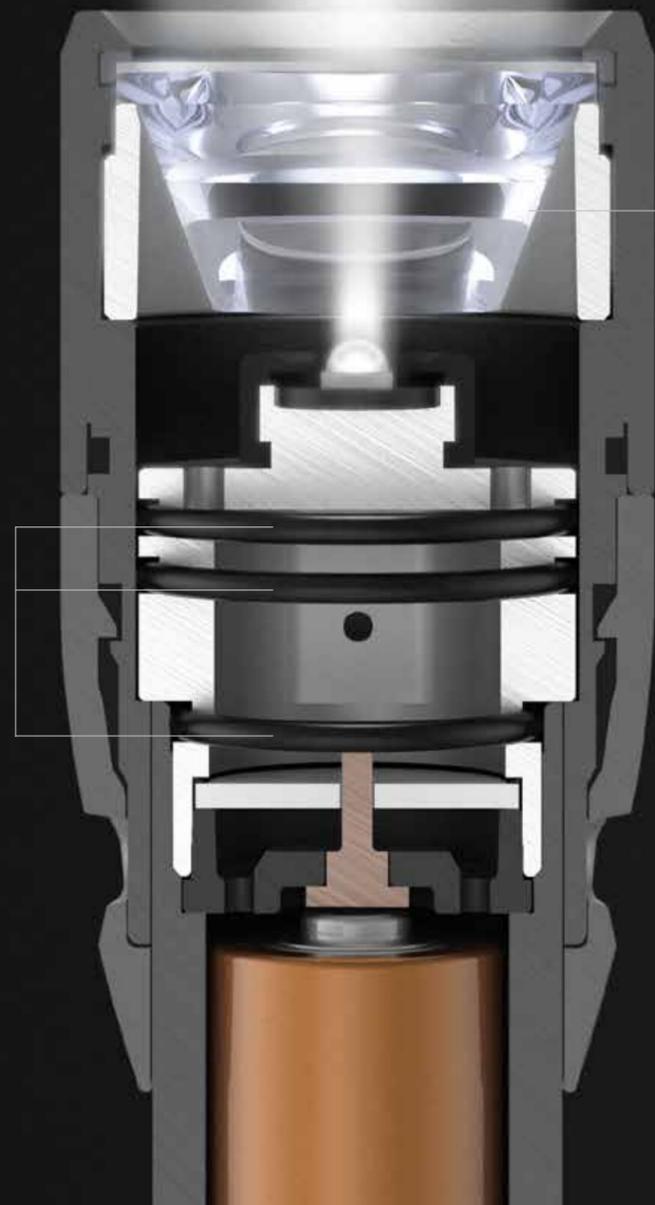

USB

LOCAL TO LONG DISTANCE IN A SLIDE

Our new 5 Series flashlights feature flood to spot technology:
The flood position projects a wide beam to illuminate your work
area or use the spot beam for a long distance focused beam.

Up to 250
yards of
long distance
visibility in
SPOT MODE

Up to 78" beam
spread in
FLOOD MODE

Proprietary
optimized lens
makes a clean
collimated beam
spread for FLOOD
and SPOT MODES

CNC machine
tracked bearing
surface allows for
a smooth glide
