

## ADJUSTABLE TAPER CONTROL

Unlike levers on professional clippers that are positioned on the side, the Conair taper control is positioned at the back of the unit. The taper level functions for both the clipper and trimmer blade, so you can hold the clipper in your hand and adjust the lever at the same time...while you're clipping/trimming. This taper control eliminates the need in some situations for an attachment comb, because it lets you gradually adjust the closeness of the cut. For the closest cut and the shortest hair, push taper control up as far as it will go to position #5. To increase cutting length, slowly push control down. If you push to the lowest position #1, it will leave hair about the same length as the short attachment comb.

Because a different cutting edge is used in each setting, the taper lever lengthens the life of your blades. Packed-in hair can slow down any clipper. To remove it without removing the blades, take your cleaning brush and brush the hair from the blades. If you do this after every clipping, especially with heavy hair cutting, the blades should remain free of cut hair. If clipper stops cutting and this action doesn't help, try loosening the blades to remove the hair.

**Any other servicing should be performed by an authorized service representative. The appliance has no user-serviceable parts. The product is for household use (see note).**

If clipper stops cutting, check to see if there is a clump of hair lodged between the blades. If that is the problem, unplug the clipper and then loosen the blades to remove the hair. If the clipper stops cutting, but does not stop running, you will need to check the blades. For new blades, send check or money order for \$6.50, which includes postage and handling, to:

Conair Corporation  
150 Milford Rd.  
East Windsor, NJ 08520

**NOTE:** Never pull on the clipper cord. Never twist or wrap the cord around the clipper. Lay it flat with the cord coiled up when not in use.

**STORAGE:** When not in use, your clipper should be disconnected, allowed to cool and stored in a safe, dry location, out of reach of children.

Any other servicing should be performed by an authorized service representative. This appliance has no user-serviceable parts. This appliance is for household use.

Stainless steel, self-sharpening blades

## KEEP AWAY FROM WATER

Everyone knows that electricity and water are a dangerous combination. But did you know that an electric appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

## ALWAYS UNPLUG SMALL APPLIANCES

## IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, take basic safety precautions, including the following:

### READ ALL INSTRUCTIONS BEFORE USING KEEP AWAY FROM WATER FOR HOUSEHOLD USE ONLY

**DANGER** — Any appliance is electrically live, even when the switch is off. To reduce the risk of death or injury by electric shock:

1. **Unplug this appliance before cleaning.**
2. Do not place or store appliance where it can fall or be pulled into a tub or sink.
3. Do not use while bathing or in the shower.
4. Do not place in, or drop into water or other liquids.
5. Do not reach for an appliance that has fallen into water. **Unplug it immediately.** For dry location use only. Do not expose to liquids, vapor or rain.
6. Always unplug this appliance from electrical outlet immediately after using.

## WARNING

To reduce the risk of burns, electric shock, fire, or injury to persons:

1. **This appliance should never be left unattended when plugged in.** Do not pull, twist, or wrap line cord around appliance.
2. This appliance should not be used by, or near children or individuals with certain disabilities.

3. Use this appliance only for its intended purpose as described in this manual. Do not use attachments not recommended by the manufacturer. Do not use an extension cord to operate this appliance.

4. **Never operate this appliance if it has a damaged cord or plug, if it is not working properly or if it has been dropped or damaged, or dropped into water.** Return the appliance to a service center for examination and repair.

5. Keep the cord away from heated surfaces.

6. Never drop or insert any object into any opening on this appliance.
7. Do not place appliance on any surface while it is operating.

8. Do not use this appliance with a damaged or broken comb or with teeth missing from the blades as injury may occur. Before use, make certain blades are aligned properly.

9. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
10. Never operate the appliance with the air openings blocked or while on a soft

surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and other debris.

11. Always attach plug to appliance first, then to outlet. To disconnect, turn all controls to OFF, then remove plug from outlet.
12. This appliance is not a toy. Keep away from children.

### SAVE THESE INSTRUCTIONS THE CONAIR GUIDE TO CUTTING HAIR AT HOME

Before you start:

1. Inspect your clipper. Make sure it's free of hair and dirt, properly oiled and running smoothly.
2. Place the barber cape or a towel around the neck of the person whose hair is to be cut.
3. Seat the person so that his or her head is at your eye level. This gives you greater visibility and control.
4. First, comb hair until it's tangle free. Then hold clipper in a comfortable grip. Now you're ready to cut.

Your new Conair® haircut kit has everything you need to achieve professional haircuts at home. It features a powerful clipper with adjustable taper control, a no-slip grip® and self-sharpening stainless-steel blades. Also included are 9 comb attachments for different hair lengths, barber comb, barber scissors, barber cape, a soft storage case, lubricating oil, and a blade guard for easy maintenance of the clipper blades.

## WARNING: IF YOU THINK THE POWER IS OFF WHEN THE SWITCH IS OFF, YOU'RE WRONG.

## LIMITED FIVE-YEAR WARRANTY (U.S. AND CANADA ONLY)

Conair will repair or replace (at our option) your unit free of charge for 60 months from the date of purchase if the appliance is defective in workmanship or materials.

To obtain service under this warranty, return the defective product to the service center listed on back, together with your purchase receipt and \$3.00 for postage and handling. California residents need only provide proof of purchase and should call 1-800-3-CONAIR for shipping instructions. In the absence of a purchase receipt, the warranty period shall be 60 months from the date of manufacture.

### ANY IMPLIED WARRANTIES, OBLIGATIONS, OR LIABILITIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED IN DURATION TO THE 60-MONTH DURATION OF THIS WRITTEN, LIMITED WARRANTY.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

### IN NO EVENT SHALL CONAIR BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, WHATSOEVER.

Some states do not allow the exclusion or limitation of special, incidental, or consequential damages, so the above limitation may not apply to you.

### This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

## HAIRCUT KIT REPLACEMENT PARTS & ACCESSORIES ORDER FORM

Pricing in effect through December 31, 2020. Orders postmarked after this date will be accepted, and the customer will be notified if pricing has changed.

## MEDIUM TO LONG CUT

To begin cutting hair:  
Attach combs by holding them teeth up, then snapping onto the bottom of the clipper blade.

To remove comb attachments, place index finger and thumb as illustrated; then pull out and up.

**NOTE:** Never push or shove the clipper through the hair to make it move more quickly. Professional experience shows that the clipper works most efficiently when it cuts through the hair at its own speed.

**To begin cutting hair:**  
1. The hair should be combed in its natural direction.

- Using the longest comb attachment, trim sides from the bottom upward. Hold clipper lightly against the hair with teeth of the comb attachment pointing upward, yet flat against the head. Gradually lift the clipper upward and outward through the hair, trimming just a little at a time.

Repeat around sides and back of head.

- If you want hair to be even shorter:  
A) Apply more pressure to the head with the comb attachment that is in place. This takes a little practice, of course.

B) Just switch to a shorter comb attachment.

**STOP. COMB. CHECK.**  
Remember, it's better to leave too much hair than too little. For longer hair on top, use the barber comb and lift hair on the top of the head, cutting over the comb. Or hold the hair between the fingers and cut to desired length. Always working from the front to the back of the head, gradually cut the hair shorter by reducing the space between the comb or fingers and the head. Comb often to check for uneven strands, and to get rid of trimmed hair.

## OUTLINING

Outlining requires no attachments. Comb hair into the desired style. Position the clipper between the sideburns and the ear (see illustration), making sure the corner edge of the blade is against the hairline. With the outline of the hair as your guide, slowly move the clipper over, around and behind the ears. For the back of the neck and the sideburns, hold the clipper upside down (see illustration) and, holding it against the skin at the length desired, move the clipper downward.

## USER MAINTENANCE CARE OF YOUR CLIPPERS

### Detachable Blade Set

This clipper comes with a detachable blade set. To remove the blades, follow these steps:

1. Hold the front part of the clipper with your thumb pressing on the blade and place another hand against the blade (see Fig. 1)
2. When pressing the blade forward, the blade is detached (see Fig. 2)

### TO REPLACE BLADE:

1. Set the Taper Control Button to lowest position "1" (see Fig. 3)
2. Place the blade onto the flat comb, not the comb attachment. Just cut hair on top of the head over flat comb (see Fig. 4)
3. Snap the blade down into position. The blade is now fixed onto the clipper body (see Fig. 5)

## BOTÓN DE AJUSTE DE LONGITUD DE CORTE

Al igual que las cortadoras profesionales, esta cortadora cuenta con un botón de ajuste de longitud de corte, ubicado en la parte de atrás de la unidad, que permite ajustar el largo del corte a medida que corta el cabello. El botón de ajuste de longitud de corte funciona con ambas cuchillas. El botón de ajuste de longitud de corte permite cortar el cabello más corto o más largo, sin tener que instalar una guía. Para conseguir el corte más apurado y el cabello más corto, deslice el botón hacia arriba, hasta la posición n.º 5. Para conseguir un corte más largo, deslice el botón hacia abajo. El ajuste más bajo dejará el cabello tan corto como la guía más corta.

Usar el ajuste de longitud de corte prolonga la vida útil de las cuchillas, puesto que estas nunca utilizan el mismo filo de corte para cortar. Su cortadora puede perder velocidad si hay recortes de cabello trabados en las cuchillas. Para quitar el pelo de las cuchillas sin tener que sacarlas, utilice el cepillo de limpieza provisto. Hacer esto después de cada uso, especialmente cuando se corta mucho cabello, mantendrá las cuchillas en condición óptima. Si la cortadora deja de funcionar y esto no soluciona el problema, afloje las cuchillas para limpiarlas.

Cualquier otro servicio debe ser realizado por un técnico autorizado. Este aparato no contiene ninguna pieza que pueda ser reparada/cambiada por el usuario. Para uso doméstico solamente (véase la nota).

## ADVERTENCIA: SI CREE QUE NO HAY CORRIENTE CUANDO EL APARATO ESTÁ APAGADO, ESTÁ EQUIVOCADO.

### MANTÉNGALO ALEJADO DEL AGUA

Todos sabemos que no se debe mezclar la electricidad y el agua. Pero ¿Sabe usted que un aparato eléctrico permanece bajo tensión aunque esté apagado? Si está conectado, hay corriente. Por lo tanto, siempre desenchufe los aparatos eléctricos después del uso.

### SIEMPRE DESENCHUFE LOS APARATOS PEQUEÑOS

## MEDIDAS DE SEGURIDAD IMPORTANTES

Al usar aparatos eléctricos, especialmente en presencia de niños, siempre debe tomar precauciones básicas de seguridad, entre ellas las siguientes:

### LEA TODAS LAS INSTRUCCIONES ANTES DE USARLO MANTÉNGALO ALEJADO DEL AGUA PARA USO DOMÉSTICO SOLAMENTE

**PELIGRO** – Cualquier aparato enchufado permanece bajo tensión, aunque esté apagado.

Para reducir el riesgo de electrocución o lesiones por descarga eléctrica:

- Desenchufe el aparato antes de limpiarlo.
- No coloque ni guarde este producto donde pueda caerse o ser empujado a una bañera o un lavabo.
- No lo use en el baño o la ducha.
- No coloque el aparato ni lo deje caer al agua u otro líquido.

5. No trate de alcanzar el aparato después de que se haya caído al agua; **desconéctelo inmediatamente**. Para uso en lugares secos solamente; no lo exponga al agua, al vapor o a la lluvia.

6. Siempre desenchufe el aparato inmediatamente después del uso.

**ADVERTENCIA** – Para reducir el riesgo de quemaduras, descarga eléctrica, incendio o heridas:

- Nunca descuide/deje el aparato sin vigilancia mientras está conectado. No jale, retuerza ni enrolle el cable alrededor del aparato.
- Este aparato no debe ser usado por o cerca de niños o personas con ciertas discapacidades.
- Utilice este aparato únicamente con el propósito para el cual fue diseñado y solamente según las instrucciones. Solo use accesorios recomendados por el fabricante. No utilice una extensión con este aparato.
- No utilice este aparato si el cable o el enchufe están dañados, si no funciona correctamente, si está dañado, o después de que se haya caído, incluso en el agua; regreselo a un centro de servicio autorizado para su revisión y reparación.
- Mantenga el cable alejado de superficies calientes.
- Nunca deje caer ni inserte ningún objeto en ninguna de las aberturas.
- No coloque el aparato sobre ninguna superficie mientras está funcionando.

**GUARDE ESTAS  
INSTRUCCIONES  
INSTRUCCIONES  
DE OPERACIÓN**

Para uso doméstico solamente. Utilícelo solamente con corriente alterna (60 Hz) de 120 V AC.

El cable de este aparato está dotado de un enchufe polarizado (una pata es más ancha que la otra). Como medida de seguridad, aquel enchufe se podrá enchufar de una sola

## GUÍA DE CONAIR PARA CORTAR EL CABELO EN CASA

Antes de empezar:

- Revise el aparato. Cerciórese de que está limpio, que funciona correctamente y que las cuchillas están lubricadas.

Su nuevo juego de peluquería Conair® tiene todo lo que usted necesita para lograr cortes de cabello profesionales en casa. Incluye una potente cortadora de cabello con ajuste de longitud de corte, mango de agarre seguro no-slip grip® y cuchillas autoafilantes de acero inoxidable. También incluye 9 guías para distintas longitudes de cabello, un peine de corte, tijeras de peluquero, una capa de corte, un estuche de almacenaje, aceite lubricante y un protector de cuchillas para un fácil mantenimiento.

### LUBRICACIÓN DE LAS CUCHILLAS (ACEITE INCLUIDO)

- Lubrique las cuchillas de la cortadora una vez al mes.
- Encienda la cortadora.
- Sostenga el aparato de manera que las cuchillas apunten hacia abajo.
- Esparsa una gota de aceite a lo largo de las cuchillas.
- Apague el aparato y absorba el exceso de aceite con un papel absorbente.

### MANTENGA EL ACEITE FUERA DEL ALCANCE DE LOS NIÑOS.

## Para empezar el corte:

- Peine el cabello en dirección de su crecimiento natural.
- Si quiere dejar el cabello más largo encima de las cuchillas, deslícela por encima de las cuchillas, y luego enganche la parte trasera.

## Para quitar las guías, ponga el dedo índice y el pulgar como se indica en la ilustración; a continuación, desengáchelas jalando hacia arriba y afuera.

**NOTA:** nunca empuje la cortadora para que corte más rápidamente. La experiencia profesional demuestra que funciona mejor cuando corta a su propia velocidad.

- Aplique más presión (esto necesita un poco de práctica). **O**
- Utilice una guía más corta.

- Haga lo mismo en el otro lado y atrás de la cabeza.
- Si quiere un corte de cabello aún más corto:
  - Aplique más presión (esto necesita un poco de práctica). **O**
  - Utilice una guía más corta.

## DETÉNGASE. PEINE. VERIFIQUE. MANTEINIMIENTO DE SU CORTADORA DE CABELO

Para obtener resultados óptimos, siga el ejemplo de los profesionales: peine el cabello con frecuencia para verificar los resultados; esto evitará los cortes disparejos en los costados, los flequillos y la nuca.

### PERFECTOS CORTES “TAPA PLANA”, CORTES MILITARES, ETC.

Siempre corte el cabello desde la nuca hasta la coronilla, usando la guía más larga.

Sostenga la guía plana contra la cabeza y deslice la cortadora lentamente hacia arriba. Utilice la misma técnica en los costados, cortando el cabello de abajo hacia arriba.

### CONTORNEO

De la frente a la coronilla, corte el cabello en dirección contraria al crecimiento del pelo y luego empareje los lados.
