Specifications

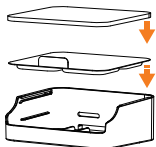

Product Name:	Oneisall Dog Water Fountain
Model:	PW07
Size:	32.7 x 32.7 x 13.8cm
Rated Voltage / Current:	DC 5V =1A
Noise:	About 35 db
Material:	SUS 304 Stainless Steel + PC

Installation

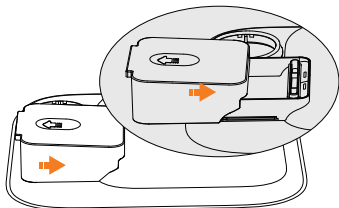

Soak the filter cartridge in a separate bowl of clean water for 5 minutes.

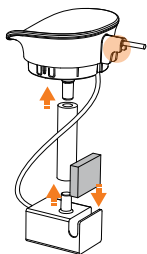

① Place the soaked filter cartridge into the filter box (flat side of the filter cartridge facing up), and then place the sponge on top of the filter cartridge.

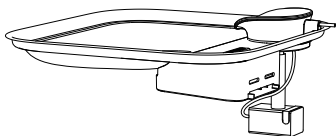

② Align the filter box with the side tracks on the filter top cover, and push it in until it fits perfectly.

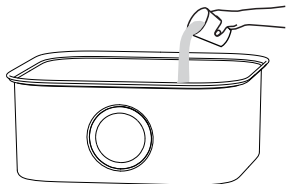

③ Place the small sponge in the side of the water pump. Assemble the pump, connecting tube, and dispenser spout together, ensuring the pump's power cord and the spout's latch are on the same side, and secure the power cord in the spout's latch.

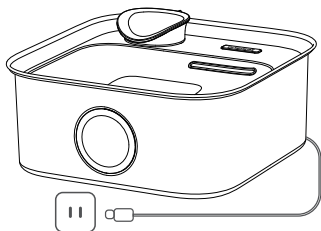

④ Place the assembled water pump assembly securely into the water dish.

⑤ Fill the storage bucket with clean water, not exceeding the max level.

⑥ Put the assembled water dish on the storage bucket and plug in.

Cleaning and Maintenance

1. Daily Cleaning and Care

- ① Before cleaning, disconnect the power and turn off the product.
- ② Remove the spout, water pump, stainless steel water dish, and filter cartridge. Discard the water in the storage bucket.
- ③ Submerge the storage bucket and water dish in water and rinse them thoroughly.
- ④ After cleaning, dry all parts with a towel and reassemble the product according to the installation guide.

2. Replacing the Filter Cartridge

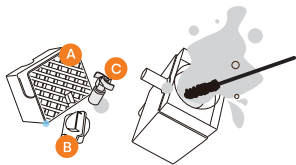

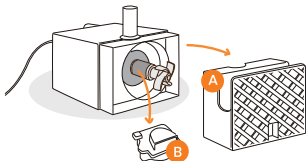

- ① Replace every 15 days for pet health.
- ② Soak new cartridge in water for 5 minutes before use to remove any activated carbon powder that may have settled during transportation.

3. Water pump cleaning

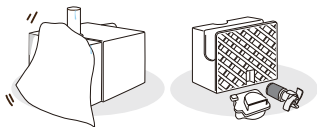

To prolong the life of the water pump, it is recommended to clean the water pump at least once a week

- ① Disassemble the pump by releasing the sponge (Use the thinner side of lid A to lever B).

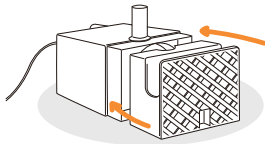

- ② Remove the impeller C and use a small brush dipped in soapy warm water to clean the inside of the pump and other components.

③ Wipe the pump and components dry with a clean dry rag.

④ Assemble the pump components and install them on the water dispenser and it will be ready to work.
