TROUBLESHOOTING	
Problem	Solution
• Unit will not operate.	✓ Check if unit is properly plugged in and outlet is energized. ✓ Make sure unit is turned ON. ✓ Make sure filters are properly installed and front grill is seated correctly.
• Decreased air flow.	✓ Verify unit is positioned on a flat surface. ✓ Make sure nothing is blocking air inlet and filtered air outlets. Position unit to where the air outlet is at least 1 foot away from wall or objects. ✓ Check condition of the filters and replace if necessary. ✓ Check filters to remove any plastic wrapping/packaging.
• Excessive Noise.	✓ Verify unit is positioned on a flat surface. Position unit to where the air outlet is at least 1 foot away from wall or objects. ✓ Make sure parts are firmly positioned in place. ✓ Open the air inlet grill, and make sure that any plastic packaging was removed from the filters, if applicable. ✓ Ensure filter clips are assembled properly and filters are seated properly.

AER1 FILTER SERIES ®

Congratulations! Your new air purifier is equipped with the new and improved Aer1® Allergen Remover Filters.

Filter Type	Technology	Consumer Benefit
Total Air	99% HEPA-Type technology. Infused with baking soda.	Ideal for dust reduction. Delivers 30% better air quality.
Odor Eliminator	10 times the odor fighting power. Contains baking soda, carbon and zeolite for odor control.	Ideal for eliminating odors from pets, tobacco smoke and cooking fumes.
THIS UNIT COMES WITH Allergen Remover	99.97% True HEPA technology. Removes up to 99.97% of particles as small as 0.3 microns passing through the filter such as pollen, dust, mold and dander.	Ideal for allergy sufferers.
Allergen Performance Plus	99.99% True HEPA technology. Helps remove up to 99.99% of particles as small as 0.3 microns passing through the filter such as pollen, dust, mold and dander.	Ideal for allergy sufferers.
Smoke Grabber	HEPA-type filtration. Triple layer protection specially formulated with Baking Soda, Carbon and Zeolite. Removes up to 99% of smoke and pollutants as small as 0.3 microns from air passing through the filters.	Ideal for reducing smoke and odors from smoke and VOC's.

FCC COMPLIANT

DECLARATION OF CONFORMITY

Holmes HAP9435B
Distributed by Sunbeam Products, Inc. 2381 NW Executive Center Dr. Boca Raton, FL 33431
Visit our Website at: www.holmesproducts.com or call 1-800-546-5637.

This product complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This product may not cause harmful interference, and (2) this product must accept any interference received, including interference that may cause undesired operation.
Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the product and receiver.
— Connect the product into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.
— Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

WARRANTY INFORMATION

3 YEAR LIMITED WARRANTY

Sunbeam Products, Inc. warrants that for a period of three years from the date of purchase, this product will be free from defects in material and workmanship. Sunbeam, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement will be made with a new or remanufactured product or component. If the product is no longer available, replacement may be made with a similar product of equal or greater value. This is your exclusive warranty. Do NOT attempt to repair or adjust any electrical or mechanical functions on this product. Doing so will void this warranty.

This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep the original sales receipt. Proof of purchase is required to obtain warranty performance. Sunbeam dealers, service centers, or retail stores selling Sunbeam products do not have the right to alter, modify or any way change the terms and conditions of this warranty.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use on improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than Sunbeam or an authorized Sunbeam service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

What are the limits on Sunbeam's Liability?

Sunbeam shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition.

Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty.

Sunbeam disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise.

Sunbeam shall not be liable for any damages of any kind resulting from the purchase, use or misuse of, or inability to use the product including incidental, special, consequential or similar damages or loss of profits, or for any breach of contract, fundamental or otherwise, or for any claim brought against purchaser by any other party.

Some provinces, states or jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

How to Obtain Warranty Service

If you have any questions regarding this warranty or would like to obtain warranty service, please call 1-800-546-5637 and a convenient service center address will be provided to you.

This warranty is offered by Sunbeam Products, Inc. located in Boca Raton, Florida 33431. If you have any other problem or claim in connection with this product, please write our Consumer Service Department.

PLEASE DO NOT RETURN THIS PRODUCT TO THE ADDRESS OR TO THE PLACE OF PURCHASE.

Aer1® Allergen Remover Filter
Air Purifier with Optional Ionizer

PLEASE READ AND SAVE THESE IMPORTANT INSTRUCTIONS

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons. These precautions include:

1. Read all instructions before using the appliance.
2. To avoid fire or shock hazard, plug the appliance directly into a 120V AC electrical outlet.
3. If the filter is covered by a bag when shipped, remove plastic bag before use.
4. Keep the cord out of heavy traffic areas. To avoid fire hazard, never put the cord under rugs, near heat registers, radiators, stoves, or heaters.
5. To protect against electrical hazards, do not immerse the appliance or use near water or other liquids.
6. This appliance is not intended for use by children or by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge. Close supervision is necessary when any appliance is used near children. Children should be supervised to ensure that they do not play with the appliance. Keep the appliance and its cord out of reach of children.
7. Always turn the appliance off before unplugging it.
8. Always unplug the air purifier before moving or cleaning the unit, opening the grill, changing the filters and whenever the unit is not in use. To disconnect the unit, be sure to pull the plug and not the cord.
9. Never drop or insert any objects into the openings of the unit.
10. Do not operate any appliance with a damaged cord or plug. If the motor fan fails to operate or the unit has been dropped or damaged in any manner, return appliance to manufacturer for examination and/or repair.
11. Use appliance only for intended household use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.

12. Do not use outdoors.
13. Never place on a soft surface such as a bed or sofa as this could cause the unit to tip over and block the air inlet or outlet grills.
14. Keep unit away from heated surfaces and open flames.
15. Do not place anything on top of unit.
16. Never use detergents, gasoline, glass purifier, furniture polish, paint thinner or other household solvents to clean any part of the appliance.
17. This appliance should only be used in a room with temperatures between 40° F and 110° F.
18. To reduce the risk of fire or electric shock, do not use this appliance with any solid-state speed control device.
19. Do not place the appliance on a walkway or where someone may trip over it. Misplacement of the appliance may cause a trip and fall.

For models with ionizers:

20. The ionizer may cause a static charge to build up on the air outlet grill. A static charge may be felt if the unit is not properly grounded. To avoid a static charge, plug the unit's three-prong plug into a grounded outlet. The static charge will not occur if the ionizer is off.
21. The ionizer in this appliance produces less ozone than the UL established limits of 50ppb (parts per billion). However, in high concentrations, ozone can be harmful to birds and small pets. To prevent ozone buildup, we suggest using the ionizer in well ventilated areas with the fan on.

SAVE THESE INSTRUCTIONS HOUSEHOLD USE ONLY

THIS APPLIANCE HAS A POLARIZED PLUG (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet.

DO NOT ATTEMPT TO MODIFY THIS PLUG OR DEFEAT THIS SAFETY FEATURE IN ANY WAY.

FEATURES

POWER CORD INSTRUCTIONS

- The length of cord used on this appliance was selected to reduce tangling or tripping hazards.
- If a longer cord is necessary, an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the electrical rating of the air purifier (see rating label marked on bottom of the product).
- Care must be taken to arrange the extension cord so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over.

GET TO KNOW YOUR AIR PURIFIER

This unit is compatible with all Aer1® Filters. This allows you to choose the filter that is just right for you. Below is information on each filter:

TOTAL AIR - Advanced Dust Eliminating Technology
ODOR ELIMINATOR - 10x the odor fighting power
ALLERGEN REMOVER - 99.97% True HEPA technology improves air quality for allergy sufferers
ALLERGEN PERFORMANCE PLUS - 99.99% True HEPA technology improves air quality for allergy sufferers.
SMOKE GRABBER - 99% effective at removing smoke from the air stream (*as small as 0.3 microns from air passing through the filter)

IONIZER

This appliance has an optional ionizer feature which, when turned on, releases negative ions into outgoing filtered air to help the air purification process.

What Are Ions?

Ions are tiny particles that carry a positive or negative charge. They exist naturally around us: in the air, water, and ground. Both positive and negative ions are colorless, odorless, and harmless.

How Does The Ionizer Work?

Negative ions help air purification by attaching themselves to very small airborne particles in the room. These particles take on a negative charge and may join with positively charged particles such as dust, pollen, smoke, and pet dander to form larger particles. These larger particles are then more easily captured by the filter system.

Important Notes:

Your ionizer may produce an occasional popping or cracking sound. This is normal and occurs when a small buildup of ions is discharged.

After extended use, you may notice dust around the grills or front panel. This is caused by negative ions exiting the air outlet, evidence of the ionizer's air cleaning effectiveness. You can remove the dust with a soft brush or clean, damp cloth.

Larger particles may be attracted to positively charged surfaces throughout the home, like walls or floors.

- This may occur more frequently when the filter is nearing the end of its usable product life and is unable to capture as many charged particles.
- Excessive amounts of pet dander, dust, or smoke may decrease the life expectancy of the filter and interfere with the ionization process.

To help prevent particles from attracting to surfaces throughout your home:

- You may want to run the ionizer less often.
 - Check the condition of the filter(s) more frequently.
- CAUTION:** The ionizer in this appliance produces less ozone than the UL established limits of 50ppb. However, in high concentrations, ozone can be harmful to birds and small pets. To prevent ozone buildup, we suggest using the ionizer in well ventilated areas with the air purifier fan on.

HIGH, MEDIUM AND LOW SPEED SETTINGS

For optimum air filtration, operate your Holmes® air purifier continuously on the MEDIUM (2) setting. Its rugged motor has been designed to give many years of use. For quieter operation (such as in a bedroom), select the LOW (1) setting. When high levels of air pollution are present, select the HIGH (3) setting to quickly circulate and filter the air in the room.

PRESET TIMER FEATURE

The timer features (⌚) allows you to run the air purifier at your convenience, for up to 8 hours in increments of 1 hour. And automatically turns the power off when time is up, to help reduce energy costs.

FEATURES - OPERATIONS

VISIPIRE® FILTER VIEWING WINDOW

Your Holmes® Air Purifier includes Aer1® Allergen Remover Filter(s), specially designed to deliver cleaner air allowing you to dust less often!! The Aer1® Allergen Remove last 12 months. See back panel for other filter options.

The Visipure® Filter Viewing Window (Fig. 1 - J) is a lens which allows you to get a clear view of the dirt being collected in the filter and see if the filter needs replacement.

BEFORE USE

1. Carefully unpack your Air Purifier and remove all packaging materials from the unit. Select a firm level place where there are no obstructions to the air inlet or filtered air outlet.
2. Remove the air inlet grill (Fig. 1 - K) and check if the filter is covered by a plastic bag. If it is, remove plastic bag before use and place filters into unit. Reinstall the air inlet grill.
3. This unit is equipped with a filter that lasts 12 months.

NOTE: Make sure air purifier is placed at least 1 foot away from wall or large objects.

OPERATING INSTRUCTIONS

1. Plug into a 120V AC electrical outlet.
 2. Select the desired operating speed; HI (3), MEDIUM (2), LOW (1), by pressing the Speed Control Button to the appropriate setting. For optimum air filtration, it is recommended to operate the air purifier continuously. Its rugged motor has been designed to give many years of use.
 3. To release negative ions into the filtered air, press the ionizer button (⊗) ON, the button and icon on the Front Display will illuminate.
- NOTE:** The ionizer will not work unless the unit is running.

Front Display

USING THE TIMER FUNCTION:

You may set the TIMER to automatically turn off your air purifier when the desired time has elapsed. To do so, press the TIMER button (⌚) until you reach the desired number of hours you want the unit to operate (from 1 - 8 hours). Once the timer has been set, the timer icon will light and the unit turns itself off at the end of the selected timer cycle.

To CANCEL the timer, press the TIMER button (⌚) until the light TIMER light disappears on the panel.

You may also cancel the timer operation by pressing the POWER button (⏻) off.

- A. Control Panel
B. Optional Ionizer Button
C. Timer
D. On/Off Button
E. Speed Control
F. Filter Reminder Light

- G. Filtered Air Outlet
H. Aer® 1 Filters
I. Washable Foam Pre-Filter
J. Visipure® Filter Viewing Window
K. Air Inlet Grill

CLEANING/MAINTENANCE FILTER REPLACEMENT

CLEANING/MAINTENANCE INSTRUCTIONS

1. Turn the air purifier off and unplug it before cleaning.
2. The outside of the air purifier can be cleaned with a soft, clean damp cloth.
3. The air inlet grill (reference Fig. 1) can be removed and washed in warm soapy water (not dishwasher safe). Dry before replacing in the unit.
4. Remove prefilter and wash in warm soapy water. Air dry and then assemble to air inlet grill.
5. The filtered air outlet can be cleaned of dust with a small, soft brush.
6. If you wish to clean the inside filter chamber of the air purifier, please only use a dry, soft cloth to wipe it down.

WARNING: Do not allow moisture to come in contact with internal components.

This appliance has no user serviceable parts. Any servicing beyond that described in the Cleaning Section should be performed by an Authorized Service Representative only. See warranty available online.

FILTER REPLACEMENT INSTRUCTIONS IMPORTANT:

- DO NOT attempt to wash and re-use the Aer1® Filters.
- If the filters are enclosed in plastic bags, remove them before use.

NOTE:

Every few weeks, check the condition of filter(s). The Visipure® Filter Viewing Window is a lens which allows you to get a clear view of the dirt being collected in the filter. The Filter Reminder Light also helps you keep track of when to change the filters. Filter life will vary, depending on air quality and usage (see below). Filters that have accumulated a layer of particles and present discoloration can reduce the air purifier performance and need to be exchanged for new filters. Under normal conditions of continuous use, the Aer1® Total Air, Odor and Smoke Filters will last 4 months while the Allergen and Allergen Performance Plus Filters will last 12 months.

After approximately 4 months of operation, check the

condition of the filter through the Visipure® Filter Viewing Window to see how much dust has been accumulated on the filters.

- Filters with a 4 month filter life: Wash the foam pre-filter and replace the Aer1® filter(s) after 4 months of operation.
- Filters with a 12 month filter life: After 4 months of operation, it is recommended to wash the foam pre-filter and check the condition of your filter(s) through the Visipure® Filter Viewing Window. The filters must be replaced after 12 months of operation.

To replace your filter(s):

1. After approximately 11 months of operation, the Filter Reminder Light as well as the Filter icon on the Front Display will illuminate, alerting you to replace the filter.
2. Turn off and unplug the air purifier.
3. Open the air inlet grill and examine the black foam prefilter. Remove prefilter from air inlet grill. Remove any dust or lint and wash in warm soapy water. Rinse, air dry and place back into grill inlet.
4. Remove the used Aer1® filter(s) from the unit by pulling it gently towards you and discard it. DO NOT attempt to clean the Aer1® filters.
5. Install the new Aer1® filter(s) into the unit model utilizes a hang.
6. Align the clip(s) on the side of Aer1® filter(s) with rails on the inside of the purifier unit. Gently slide the filter(s) onto the rail. (Fig. 2)
7. Replace air inlet grill.
8. Replug the air purifier and reset the Filter Reminder indicator by pressing and holding the button for 3 seconds. The light will then go off.
