

SWAGTRON® SWAGGER 3

FOLDING ELECTRIC SCOOTER

Your Neighborhood Just Got Bigger

Meet the next evolution in intelligent personal transportation, the Swagger 3. Built to cover serious ground, this electric scooter is light, easy to fold, and uses a high-torque 250W hub motor. Smart features like cruise control and USB charging make the Swagger 3 the best way to get around whether it's rolling through your neighborhood or navigating campus.

Three riding modes let you find your most comfortable max throttle speed. Engage cruise control with the push of a button. Track essential stats on the backlit LED display. Monitor vital info, including speed and battery life, while keeping your eyes on the road.

TRAVELS UP TO
14.2 MILES
FULLY CHARGES IN
3 HOURS

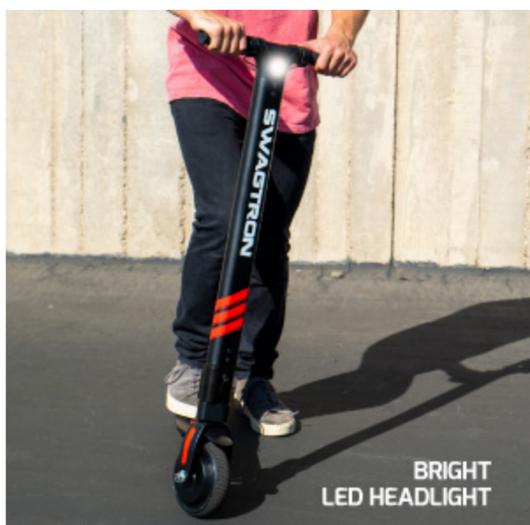

REAR SUSPENSION

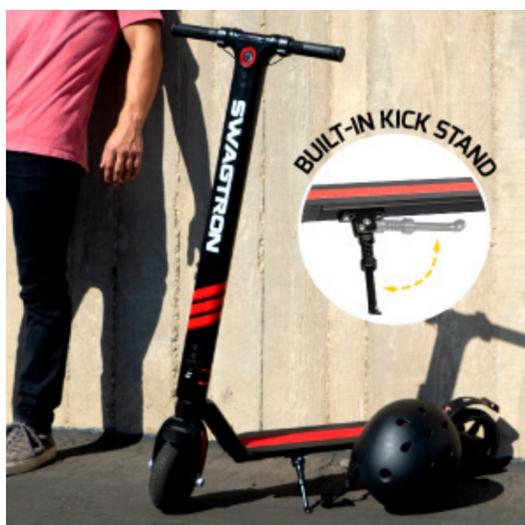

250W
HUB MOTOR
CLIMBING CAPACITY 25°

Travel-Ready Design and 250W Motor

Roll through 14.2 miles of sights with the Swagger 3's powerful 250W motor. Low-maintenance rubber tires with rear suspension help smooth out bumpy rides on uneven pavement. A dual braking system combines a rear heel brake with an electronic front brake so that your journey around town is sure to be comfortable and worry-free.

BRIGHT
LED HEADLIGHT

BUILT-IN KICK STAND

Light It Up

The one-button LED headlight brightens the path ahead and keeps you visible when daylight ends before your ride does.

Kickstand and USB Charging Port

Take a break and pop out the kickstand. The Swagger 3 includes a USB port near the display so you can charge your phone on the go.

SUPPORTS
UP TO 220 LBS

Built Tough for Smoother Rides

A durable aluminum frame supports up to 220 pounds (100 kilograms) making it perfect for riders all shapes and sizes.
