

THE BUTTON

MULTICONTROLLER

MANY FEATURES IN A SINGLE DEVICE

FIBARO The Button allows you to control various devices and run scenes, that can be triggered with one click, two clicks or by holding the button down. The Button can be conveniently mounted in any position and on any surface throughout your home.

CONVENIENT SIZE AND MOBILITY

The Button can be placed virtually anywhere.
It can be fixed to a spot and moved when needed.

FIBARO SUPPORTS APPLE

The FIBARO System devices are based on Z-Wave technology, thanks to which they can work individually or in groups, communicating with one another, providing you with indefinite home automation management possibilities. According to our mission, to automate every single household and taking advantage of Apple's technology, FIBARO created new line of devices, which are now compatible with HomeKit.

WHAT IS HOMEKIT?

Apple HomeKit offers simple and secure technology for home management. HomeKit technology provides advanced security with end-to-end encryption and authentication between a HomeKit-enabled accessory and your iPhone, iPad, or iPod touch.

HOW IT WORKS?

Use your iOS device through Apple TV or iPad, which serve as a hub in the home.
Speak to command. Siri also knows the status of the HomeKit-enabled products in your home.*

*full support of Apple HomeKit technology depends on Apple Inc.

FIBARO MOBILE APP

The FIBARO app makes installation and configuration extremely simple. Users get extended setting options for FIBARO devices - unavailable in the Home app. To add a FIBARO device working with Apple HomeKit, simply scan the code and confirm the installation.
