α9 Intelligent Processor

LG ThinQ AI

4K Cinema HDR

Dolby Atmos®

Ultra-Thin Cinema Screen

DESCRIPTION

The Best TV Ever just got even better with the new LG OLED-exclusive α9 intelligent processor, LG ThinQ AI, and 4K Cinema HDR, plus Dolby Atmos® audio. The Blade Slim design accentuates the LG OLED screen without distraction from the breathtaking picture.

KEY FEATURES

α9 Intelligent Processor

LG—the industry leaders of OLED TVs—made the Best TV Ever even better by developing the α9 Intelligent Processor. LG's most powerful processor provides true-to-life images with incredibly rich colors, sharpness and depth for greater realism.

LG ThinQ AI

LG ThinQ AI televisions become the hub for all of your connected smart devices. Beyond apps and entertainment, LG ThinQ AI uses intelligent voice control with Google Home built in, plus Amazon Echo compatibility to create a Smart TV platform for the Internet of Things.

4K Cinema HDR

LG OLED TVs support the most premium content choices, all optimized scene-by-scene. The comprehensive high dynamic range lineup now includes cinema-standard Dolby Vision®, Advanced HDR by Technicolor®—the movie industry's color experts—plus HDR10 and HLG.

Dolby Atmos®

Bring big-screen surround sound to the living room: crickets chirping all around, a monster roaring from behind, or a plane soaring overhead. Dolby Atmos® creates a more detailed sound experience that appears to come from everywhere for a wonderfully realistic, immersive experience.

Disclaimer: Dolby, Dolby Atmos and the double-D symbol are registered trademarks of Dolby Laboratories. Dolby Vision is a trademark of Dolby Laboratories.

Ultra-Thin Cinema Screen

A beautifully slender bezel accentuates the premium LG OLED screen along the four sides without distraction from the breathtaking picture.

LG OLED TV
