VR180 CAMERA: TO CAPTURE LIFE AS YOU SEE IT

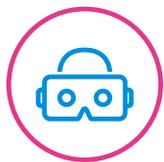

CAPTURE AND RELIVE

Lenovo™ Mirage Camera is an easy-to-use, point-and-shoot VR camera that lets you create your own stereoscopic VR contents. With its ability to capture real-life depth in 4K quality, this pocket-sized camera lets you record exciting scenes, which can be relived later on with your VR devices via Google Photo and YouTube, as if you were there again. Use Lenovo Mirage Camera to capture moments like travel experiences, family moments and big events to share with your family and friends.

Lenovo™

WHY YOU SHOULD BUY THE LENOVO MIRAGE CAMERA WITH DAYDREAM

Truly immersive VR photos and video capturing

Dual 13 MP fisheye cameras and 180° x 180° FOV allow you to capture and experience in-depth stereoscopic photos and videos with 2x+ the resolution of 360 and better 3D.

Easy to create

No need for specialized VR videography skills or professional camera gear. Just aim and start recording or capturing - you can't miss it.

Easy to share

Natively integrated with Google Photos and YouTube. The specialized VR180 format, viewable as standard 2D or stereoscopic 3D (with/without VR devices), is best for sharing.

Amazing 3D live streaming

Instantly live stream what you capture. With the high video compression format, high-resolution videos are smaller and quicker to live stream.

RECOMMENDED LENOVO SERVICES

Warranty Extensions (1-to-3 Years Total Duration)* The fixed-term, fixed-cost service helps accurately budget for PC expense, protect your valuable investment and potentially lower the cost of ownership.

Accidental Damage Protection* Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.

* Not available in all countries.
