Take your business travel to the next level with the Swissgear 6392 Scansmart Laptop Backpack. A clean, structured and uncluttered design are the trademarks of this new pack. The bag features a thick, cushioned top carry handle for easy lifting and maneuvering, a ScanSmart lay flat laptop compartment for hassle-free TSA security checks, a large capacity center compartment as well as an independent, padded tablet compartment.

The front of the bag features a full organizer compartment complete with mobile phone pocket and key clip. Additional features include two side water bottle pockets, ergonomically contoured shoulder straps and a fully padded back panel with a built-in add-a-bag panel allowing you to securely attach the bag to most wheeled luggage.
