

Thank you for purchasing a Dynex 3-Port HDMI Switch. This HDMI Switch is designed to expand the number of HDMI ports on your display (such as a TV). It creates three HDMI inputs from a single HDMI port on your display.

Package contents

- 3-port HDMI Switch
- AC power adapter
- *Quick Setup Guide*

Features

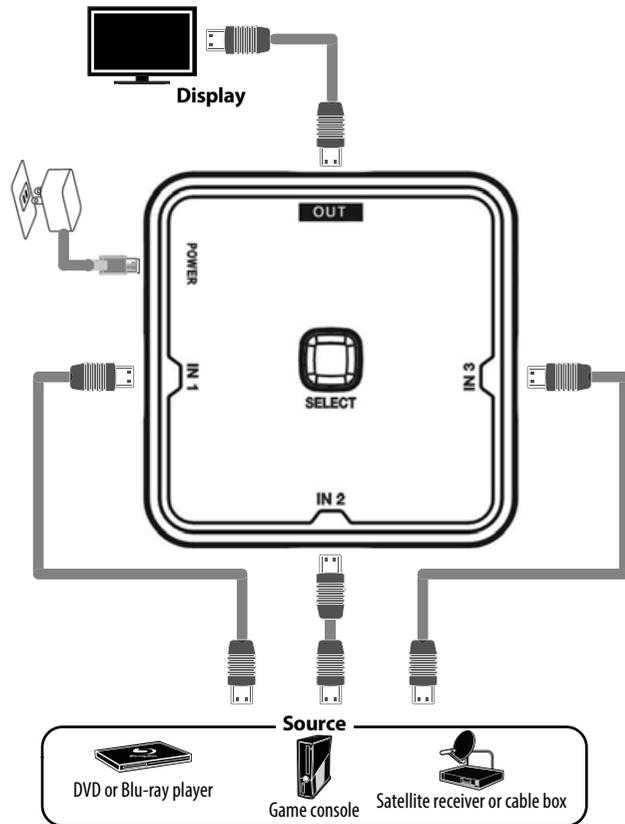

- Automatically detects and switches to your source device
- Full HD 1080p video compatibility

Before using your new product, please read these instructions to prevent any damage.

Connecting your HDMI Switch

Note: You can connect any source device to any HDMI IN port.

- 1 Connect HDMI cables from each of your source devices (such as a cable box or Blu-ray player) to any of the **IN** ports on your HDMI Switch.
- 2 Connect an HDMI cable from your display (such as a TV) to the **OUT** port on your HDMI Switch.
- 3 Connect the AC power adapter to the **POWER** connector on your HDMI Switch, then connect the other end to an AC power outlet.

Using your HDMI Switch

- 1 Turn on your display (such as a TV) and make sure it is set to the HDMI input connected to the HDMI Switch.
- 2 Turn on the source device (such as a Blu-ray player) that you want to use. The HDMI Switch should automatically change to that input input. The corresponding LED lights.

OR

If the HDMI Switch does not automatically change to the correct input, press **SELECT** on your HDMI Switch until the corresponding LED lights.

Note: To switch to another source, turn off the source you are currently using, then turn the new source on.

OR

Press **SELECT** on your HDMI Switch until the corresponding LED lights.

Troubleshooting

Problem	Solution
No video and/or audio.	<ul style="list-style-type: none"> • Make sure that all connections are correct and secure. • Make sure that the HDMI Switch is connected to power. • Make sure that your display is set to the source (input) that the HDMI Switch is connected to. • Make sure that your HDMI cables are not damaged. Try replacing your cables. • Unplug the power cable, wait 30 seconds, then plug it back in. • Make sure that your DVD or Blu-ray disc is an original. HDMI includes HDCP copy protection, which prevents playback of illegally copied movies.

Specifications

FCC Information

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

ICES-003 statement:
