RC-Model  
Ready2Run

Frequency  
2.4 GHz

Weight  
160 g

Size  
276 x 72 mm

## zoopa Thunder #01

### Brandnew: The Zoopa Thunder 01 racing boat.

ACME the game company proudly presents: The zoopa Thunder #01 high power racing boat.

After bringing you zoopa rc-helicopter fun in the air and the monstertruck on land, you can now head to the waters with our number 1 racing boat. The boat weighs in just over 160 grams, is 27.6 cm long and carries a water cooled engine.

Thanks to its high manoeuvrability, it is perfectly suited for pools, small ponds and calm lakes where it is surprisingly easy and fun to control for newbies, advanced and even professional pilots. It will run up to a range of 150 meters at top speeds of 20km/h - any further and faster and you wouldn't even be able to see the boat anymore!

The 2.4 Ghz technology allows multiple Thunders to be controlled in the same waters so invite your friends to join in for exciting high speed water races. Except for 4 standard AA batteries for the controller, everything you need to get going is inside the box.

And now it's time to open the box, raise the antenna and release your Thunder!

**ALLE NOTWENDIGEN TEILE ENTHALTEN**  
**EVERYTHING INCLUDED, READY TO RUN**
