OPERATING INSTRUCTIONS

Before using this product, make sure that you have read and understood the entire contents of the safety precautions. Before using this product make sure the hair is washed and dried to ensure safe and effective use. Plug into the outlet, when the indication lights turn blue it means the brush is working properly.

- Plug into the outlet, when the indication lights turn blue it means the brush is working properly.
- To start, press and hold the power button for 3 seconds and the display screen will flash and show the temperature.
- According to your needs, use the temperature up and down buttons to adjust the setting temperature up to 450°F.
- While heating the display screen will flash, after heating to the setting temperature, the display screen will stop flashing.
- When using please hold the handle and pay attention to the distance between the hot brush and exposure to skin and eyes. Part the hair evenly and hold tight when brushing, and brush from root to tip until the hair looks as expected.
- After using, turn off the brush and then unplug. Then put the

product in a dry and open area to allow the brush to cool down before storing.

The product will automatically transfer into energy-saving mode after being on for 30 minutes. Heating function and negative ions function will automatically cool down. The display screen will show "HOT" and you can press any of the buttons to turn the heating back on if you need to continue using the brush.

This product has an anti-burning notice, when PTC heater isn't running (power off or energy-saving mode), the display screen will show "HOT" if the temperature of the core of hot pieces excess 65°C, if the temperature of the core of heating pieces isn't excess 65°C, display screen will turn off. When display screen shows the error messages "NEr" or "PEr", refer to the manual and be cautious when handling the brush.

*1: Due to the differences of the electronic elements, there may be differences between the real temperature and the setting temperature, but it should be within a suitable range of use.

CAUTION: Please refer to the user manual for questions when using the product and keep the manual for future reference.

Warning: Do not use this product near water.

Warning Symbol: Do not use in the bath or shower.

Warning: Do not use this product near the bathtub, wash basin, or anything that holds water.

- Make sure to unplug the brush after use (even if it is already turned off), there is a risk of electric shock if it is not properly unplugged
- For your safety if the power cord is damaged, it must be replaced by the manufacturer.
- For your safety, it is recommended to use a plug of 30 mA. It is unsafe to use an outlet that exceeds 30mA.
- Please do not insert metal objects into the product in order to avoid electric shock.
- Before plugging in the product, please make sure that the voltage indicated on the product is matched by the outlet.

- Please do not use this product for any other purpose not mentioned in this manual.
- When the product is connected to a power supply, do not leave it unattended; and make sure unplug after use.
- Do not use any accessories or parts that produced by other manufacturers or not recommended by Xijia; the warranty will be invalidated by using such accessories.
- During use or when cooling the brush, please do not place it on a surface which cannot be heated.
- Be careful to not allow the brush to make direct contact with the skin; especially the eyes, ears, face and neck.
- This product is not suitable for physically and mentally disabled, or incapacitated persons (including children), unless there is a guardian to help them to use.
- Children should be supervised to avoid allowing them to play with this product, especially during use or cooling.
- Please ensure that the product has sufficiently cooled down before storage.
- After use, do not wrap the power cord around the product; instead coil the power cord loosely and place it next to the appliance, this will help prevent damage to the power cord.
- Plastic packaging bags from this product should be placed in a place that infants and children cannot reach so they cannot play with them.
- This manual tries to keep the accuracy and rigor of the information, please refer to the manual if there is any error. If you have comments to improve this product or manual, we welcome your feedback.

This manual tries to keep the accuracy and rigor of the information, please in kind prevail if there is any error on images or tests, welcome to point it out for improving.
