The Keystone 16,000 BTU 230V portable air conditioner has four modes - auto, cool, dry and fan - to keep you cool and comfortable wherever you need it most. Designed for a room up to 550 square feet, features include top auto-swing air louvers, 24-hour timer and sleep function. Electronic controls with an LED display and remote control make it easy to operate. Omni-directional casters roll the unit easily from room to room. Keystone's portable, self-evaporative AC includes a flexible exhaust hose and window venting kit for simple setup. This unit requires a special 230V electrical outlet and will not operate with a standard 115V household electrical outlet.
