

# REFERENCE OUTDOOR R0-525

Klipsch®

## GREAT SOUND IN ANY WEATHER

With a 5.25" poly cone woofer and a Tractrix horn-loaded 1" silk dome compression driver, the R0-525 provides exceptional sound for your outdoor space using the same design principles as our high performance home theater and professional cinema speakers.

## TRACTRIX HORN TECHNOLOGY

For decades, our proprietary Tractrix horn design has brought high efficiency, low distortion, and superb dynamics to every Klipsch product. The 90° x 40° Tractrix® Horn geometry utilized in the R0-525 provides exceptional efficiency and detail, while focusing the sound on your listening space.

## ALL-WEATHER DURABILITY

The R0-525 utilizes a UV resistant rustproof ABS cabinet along with rustproof aluminum grille and hardware so it will withstand the elements in any season - providing you with great outdoor sound year in and year out.

## EASY, SECURE INSTALLATION

The R0-525 mounts easily and securely to any outdoor surface with the included rustproof aluminum C-bracket. Simply mount the bracket with wood screws, then attach the speaker using the included nuts, which allow for easy placement and aiming with a secure hold to prevent sagging or shifting over time.

## SPECIFICATIONS

<b>FREQUENCY RESPONSE</b>	65Hz - 20kHz (+/-3dB)
<b>SENSITIVITY (1 WATT @ 1M)</b>	92dB
<b>POWER HANDLING (CONT/PEAK)</b>	75W / 150W
