### FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### IMPORTANT SAFETY INSTRUCTIONS

WARNING—When using this product, basic precautions should always be followed, including the following:

1. Read all instructions before using the product.
2. To reduce the risk of injury, close supervision is necessary when the product is used near children.
3. Do not insert fingers or hands into the product.
4. Do not expose the power bank to rain or snow.
5. Keep the product away from direct sunlight, fire, hot ovens, hot surfaces, or extremely low air pressure environments to prevent the risk of explosion, bulging, or leakage of flammable liquids or gases.
6. Avoid disassembling, crushing, puncturing, replacing batteries, dropping, or cutting the product to prevent fire, explosion, or leakage of flammable liquids or gases.
7. Do not place the product on a bed, under bedding, or in any airtight environment to prevent overheating, which may cause burns or deformation.
8. Using a non-manufacturer-approved power supply or charging cable may pose a risk of fire, explosion, or overheating.
9. Keep the product away from hazardous chemicals or cleaning agents. Do not immerse it in water or store it in a humid environment.
10. To maintain battery performance, charge and discharge the product at least once every three months.
11. If the product exhibits abnormal heat, deformation, swelling, or emits an unusual odor, stop using it immediately and contact a qualified recycling facility for proper disposal.
12. Do not use the power bank in excess of its output rating. Overloading outputs above the rated capacity may result in a risk of fire or injury.
13. Do not use a power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior, resulting in fire, explosion, or injury.
14. Do not disassemble the power bank. Refer servicing or repairs to qualified service personnel. Incorrect reassembly may result in a risk of fire or injury.
15. Do not expose a power bank to fire or excessive temperature. Exposure to fire or temperature above +40°C (+104°F) may cause explosion.
16. Servicing should be performed by qualified personnel using only identical replacement parts to ensure continued safety.
17. Switch off the power bank when not in use.
