With 25 years of robotic expertise and continuous innovation, iRobot® has optimized our Roomba® robot vacuum to help thoroughly clean floors in homes around the world.

Roomba® s9 features:

Hugs edges, gets into corners

PerfectEdge® Technology with advanced sensors, and a specially designed Corner Brush deliver a detailed clean

Our deepest clean yet*

The 3-Stage Cleaning System uses Dual Multi-Surface Rubber Brushes and 40X the suction** to pull in embedded dirt, debris, and pet hair from wherever it hides

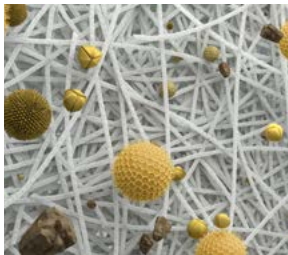

Imprint™ Technology

Using Imprint™ Link Technology, Roomba® s9 and Braava jet® m6 robots talk to each other to coordinate automatically vacuuming and then mopping

Knows where it is, wherever it is

vSLAM® technology uses an optical sensor to capture over 230,400 data points per second, allowing the robot to create a detailed map of its surroundings

High-Efficiency Filter

High-Efficiency Filter is made from a special material that captures 99% of mold, pollen, dust mite, dog and cat allergens

Compatible with Clean Base™ Automatic Dirt Disposal

Automatically empties the bin into a disposable bag that holds 30 bins of dirt, dust and hair, so you don't have to think about vacuuming for weeks at a time
