New Product Announcement

Delta[®] XC Series

A Better Dog Starts Here.

The Delta XC dog training devices with proven Tri-Tronics[®] technology gives you more control with simplicity. Now featuring long and short changeable contact points so you can choose the correct size points that are most appropriate for your dog's coat, and with improved stimulation levels for even better training at home or in the field. **Choose from 3 versions: Delta XC, Delta Sport™ XC, and Delta Upland™ XC.**

KEY FEATURES:

DELTA XC

PRODUCT COPY:

DELTA XC

25 WORDS	Delta® XC puts more dog training control in your hands with 18 levels of momentary and continuous stimulation and changeable contact points (long and short).
62 WORDS	The Delta® XC trainer from Garmin and Tri-Tronics® gives you more control with more simplicity. The XC system features an easy-to-use, 3-button controller and compact dog device with changeable contact points (long and short), 18 levels of momentary and continuous stimulation (plus tone and vibration), 3 correction configurations, and the ability to train 1, 2 or 3 dogs up to ½ mile away.
88 WORDS	The Delta® XC remote dog training system from Garmin, with Tri-Tronics® technology gives serious dog trainers more control with more simplicity. The handheld controller features intuitive, 3-button design with improved false-correction prevention (dog select lock) and easy-to-read LCD display. The compact dog device features changeable contact points (long and short). Together the system gives you 18 levels of continuous stimulation and 18 levels of momentary stimulation, plus tone and vibration, in 3 correction configurations, and with the ability to train 1, 2 or 3 dogs from up to ½ mile away (w/ purchase of additional dog devices).

DELTA SPORT XC

27 WORDS	Delta Sport™ XC from Garmin and Tri-Tronics® is a ¾ mile range trainer with 36 levels of momentary and continuous stimulation, changeable contact points and built-in BarkLimiter™.
62 WORDS	The Delta Sport™ XC from Garmin and Tri-Tronics® gives you more control with more simplicity. It features an easy-to-use, 3-button controller, compact dog device with changeable contact points (long and short), 36 levels of momentary and continuous stimulation (plus tone and vibration), 5 correction configurations, a fully adjustable BarkLimiter™, the ability to train 1, 2 or 3 dogs, and ¾ mile range.
101 WORDS	The Delta Sport™ XC trainer from Garmin, with Tri-Tronics® technology gives dog trainers more control with more simplicity. The easy-to-use, 3-button handheld controller with improved false-correction control, easy-to-read LCD display and compact dog device with changeable contact points (long and short) gives you 36 professional levels of continuous and momentary stimulation, plus tone and vibration, 5 correction configurations, and the ability to train 1, 2 or 3 dogs from up to ¾ mile away (w/ purchase of additional dog devices). Sport XC features a fully adjustable BarkLimiter™ with Advanced Bark Correction for more effective training in the field and a quieter kennel at home.

DELTA UPLAND XC

31 WORDS	Delta Upland™ XC is designed for the upland hunter with 36 levels of momentary and 18 levels of continuous stimulation, changeable contact points (long and short), BarkLimiter™ and remotely operated beeper.
61 WORDS	The Delta Upland™ XC remote trainer with proven Tri-Tronics® technology is specially designed for the upland hunter with a ¾ mile range, 36 levels of momentary and 18 levels of continuous stimulation, changeable contact points (long and short), 5 correction configurations, adjustable BarkLimiter™, and beeper with 8 possible sound combinations, including 4 hunt (including silent) and 2 point (including hawk scream).
110 WORDS	The Delta Upland™ XC trainer from Garmin, with Tri-Tronics® technology gives upland hunters more control with more simplicity. Features include an easy-to-use, 3-button handheld controller with improved false-correction control and compact dog device with changeable contact points (long and short), enhanced stimulation levels – 18 continuous and 36 momentary – plus tone and vibration, 5 correction configurations, and the ability to train 1, 2 or 3 dogs from up to ¾ mile away. The built-in BarkLimiter™ is adjustable from the handheld. The included upland beeper, controlled by the handheld, features 4 hunt sounds (including silent) and 2 point sounds (including hawk scream) to help locate your dog and know when he’s on point.
