

# Stream video from your smartphone to any HDTV

## Streamcast Mobile Wireless HDMI Streaming Kit

HD 1080p

The Streamcast Mobile lets you wirelessly mirror your favorite content from your Type-C enabled smartphone, tablet or laptop to any HDTV. No need to worry about network setups, apps to download or accounts to create. The streaming kit comes with a receiver unit and a transmitter unit that comes pre-paired out of the box so you can get streaming fast with family, friends and colleagues! Supports full HD 1080p resolution.

The wireless HDMI transmitter and receiver are perfect for TV's that do not have built-in streaming apps. Watch movies, streaming series, sports and gaming videos from your subscribed content providers such as Amazon Prime, Netflix, Hulu, Disney Plus, YouTube, Twitch and more.

Swap from smartphone to smartphone, TV to TV to experience true Plug-n-Play versatility!

## Instant Wireless Streaming

The Streamcast Mobile uses advanced WiFi technology to stream content wirelessly up to 100 feet from your laptop to any HDMI enabled screen, making it easier than ever to connect and enjoy your favorite media with friends and family.

## High-Definition Viewing

Enjoy stunning video quality with support for full HD 1080p resolution. The Streamcast Mobile ensures that every detail of your media is displayed with clarity.

## Simple Set up

No accounts to create. Simply plug the Receiver (RX) into the HDMI port on your TV, monitor or projector. Insert the Transmitter (TX) into the Type-C port of any smartphone, tablet or laptop. Connect the receiver to power with the included USB-C cable. The RX and TX are pre-paired so you can start streaming fast.

## Plug-n-Play Convenience

Whether you're traveling for work, headed to your friend's house to stream the game or simply moving between rooms in your house, the wireless HDMI kit is small enough to fit in your pocket, making it the perfect on-the-go companion for Plug-n-Play versatility!

## Perfect Presentations

The Streamcast Mobile is a great option for displaying presentations from your smartphone or laptop to a TV in a conference room or classroom.
