Swipe up with three fingers to see every open window on your Mac.

Choose System Preferences from the Apple menu and click Trackpad to learn more about gestures.

The Dock at the bottom is a handy place to keep the apps you use most. It's also where you can open System Preferences, which lets you customize your desktop and other settings on your Mac. Click the Finder icon to quickly get to all your files and folders.

The menu bar at the top has lots of useful information about your Mac. To check the status of your wireless Internet connection, click the Wi-Fi icon Your Mac automatically connects to the network you chose during setup.

Help

Finder Dock

iCloud iCloud stores your music, photos, mail, and more. And it wirelessly pushes

them to your Mac, iPad, iPhone, iPod touch, and even your PC. All without docking or syncing. So when you buy a song on one device, it's automatically downloaded to all your others. And with Photo Stream, your latest photos appear everywhere you want to see them. To customize your iCloud settings. open the Apple menu, select System Preferences, and click iCloud. Then sign in with your Apple ID and choose the iCloud features you want to use.

An important note
