

iLX-W770

6.75-inch Shallow-Chassis Digital Multimedia Receiver with Wireless Carplay & Android Auto

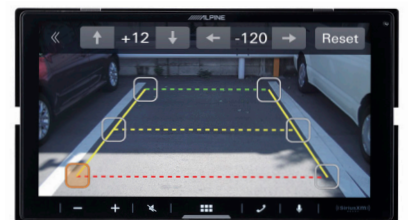

PRODUCT OVERVIEW

Upgrade your car's entertainment system with the Alpine iLX-W770 receiver. Featuring Wireless CarPlay and Android Auto, it ensures easy connectivity to your devices. The dual camera inputs provide flexibility for front and rear cameras, while the integrated Sound Boost menu delivers excellent sound control, perfect for audio enthusiasts seeking an immersive and connected experience.

PRODUCT FEATURES

Seamless Connectivity – The iLX-W770 features a vibrant 6.75" double-DIN touchscreen display with a user-friendly interface, seamlessly integrating into your vehicle's dashboard. With Wireless Apple CarPlay and Android Auto, access your favorite apps, music, and navigation effortlessly. The intuitive design ensures every interaction is simple and quick, enhancing your driving experience with seamless connectivity.

Safety & Convenience – The iLX-W770 is equipped with dual camera inputs, allowing for the integration of both front and rear cameras, providing enhanced safety and convenience. Easily switch between views to navigate tight spaces or monitor your surroundings, ensuring a safer and more informed driving experience.

Enhanced Audio & Ambiance - Elevate your audio with the Sound Boost menu, offering expanded bass controls, as well as dedicated subwoofer settings. Plus, the built-in Lighting Link feature lets you control the lighting on Alpine's PrismaLink™ subwoofer enclosures directly from the screen, adding a captivating visual element that enhances your music.

Fine Tune Your Sound - Unleash the full potential of your music with the 13-band graphic EQ, 6-channel time correction, and versatile crossovers for the front speakers, rear speakers, and subwoofer. The iLX-W770 gives you the tools to fine-tune your sound to perfection.

iLX-W770
