MODEL NAME

2-in-1 Indoor/Outdoor Electric Griddle

LONG DESCRIPTION

The Cuisinart 2-in-1 Indoor/Outdoor Electric Griddle is the perfect cooking solution for any setting—whether you're whipping up breakfast in the kitchen or cooking dinner on the balcony. Designed for versatility and convenience, this compact electric griddle assembles in under 10 minutes, getting you ready to cook with ease. The powerful 120V heating element heats the non-stick griddle surface to over 550°F, providing the high temperatures needed for searing and perfectly cooked meals. With 240 sq. in. of cooking space, you can prepare anything from pancakes and bacon to stir-fry and grilled sandwiches. The griddle offers two setup options: use it on the stand for a traditional outdoor cooking experience, or easily remove it for tabletop cooking indoors. Whether you're making breakfast in your kitchen or hosting a cookout, this electric griddle makes it easy to enjoy griddled foods anywhere. The 5 adjustable heat settings allow you to fine-tune the temperature for various dishes. The grease management system keeps your cooking area clean by directing drippings into the collection cup below. The 6-foot power cord provides ample reach for both indoor and outdoor use.

BULLET

INDOOR AND OUTDOOR USE: Enjoy the flexibility to use this electric griddle on the stand for outdoor cooking or remove it for tabletop cooking indoors, making it ideal for kitchens, balconies, patios, and more.

SPACIOUS COOKING SPACE: The 240 sq. in. non-stick griddle surface accommodates a variety of foods, perfect for cooking breakfast, lunch, or dinner for the family. The non-stick surface ensures easy food release and quick cleanup, whether indoors or outdoors.

ADJUSTABLE TEMPERATURE CONTROL: The temperature probe offers 5 heat settings ranging from 350°F to over 550°F, letting you select the ideal cooking temperature for everything from eggs and bacon to stir-fries and sandwiches. The 6-foot power cord ensures convenient placement anywhere.

EFFECTIVE GREASE MANAGEMENT: The griddle surface features a central channel that guides grease into the collection cup below, keeping your cooking space clean and reducing the risk of mess.

NO TOOL ASSEMBLY: No tools or hardware are needed for setup. The griddle can be assembled and ready to use in under 10 minutes, so you can start cooking indoors or outdoors right away.
