

# element <sup>A</sup> AIR + STEAM HUMIDIFIER

## About the element <sup>A</sup>

Who said steam has to feel hot? Vornado has put a safe new twist on steam with Element A: A groundbreaking humidifier that brings air, steam and aromatherapy together. Element A humidifier allows the user to enjoy three unique steam experiences: Powerful heated steam, satisfying warm steam, and a groundbreaking "cool steam" mode. Vornado's "cool steam" changes the nature of steam humidification — using air to cool and distribute steam vapor at room temperature. Element A humidifier is fast, naturally antimicrobial and low maintenance — delivering sanitized steam vapor in under 45 seconds — without the hassle and expense of wicks, filters or UV bulbs. Element A also creates a spa like experience with a removable, easy to fill, easy to clean Inhalant cup.
