RGBW IP-RATED
LED LIGHTING
STRIPS LIGHTING

The COLORTRAIL 16ft RGBW IP65 LED Tape Strip Lighting offers endless dynamic color combinations and patterns, controlled via the Stinger ENLIGHT10 app. Compatible with HORIZON10 and HEIGH10, the strips can be cut every 2 inches for custom applications. Built with an IP rating, it's perfect for extreme environments and marine use, featuring 3-pin waterproof connectors for reliable, durable performance.

Thanks to its flexible design, COLORTRAIL can easily fit into any space or configuration, making it perfect for everything from off-road adventures to boat lighting or showcasing your vehicle at a car meet. These lights are engineered for both style and longevity, turning heads wherever you go.

With COLORTRAIL, your ride will not only stand out but also be equipped with a high-performance lighting solution that is built to last.
