Classic features

Layers and masks

Use multiple, non-destructive layers when editing images to create photo composites with ease. Create masks to hide or show parts of a layer, fade between layers, and to create special effects with precision.

Drawing and painting tools

Use brushes, vector tools, fills, the color changer and gradients to explore a wide range of creative projects.

Text tools

Add text to any print, web or photo project with a complete set of typography tools.

Scripts

Scripts bring the power of automation to photo editing. Record a series of commands as a script that you can playback at any time.

Batch processing

Save time and increase productivity by quickly applying adjustments to multiple photos at once.
