### Mesh WiFi That Lets You Stream, Game, and Binge Nonstop

The MR7350 WiFi 6 Router lets you stream, game, and binge nonstop. Powered by Intelligent Mesh™ technology, which adapts to your WiFi needs, your devices will always have a full-strength signal throughout your entire home. Utilizing the latest WiFi 6 technology, all your device connections will be high-quality while also adhering to the latest security standards. Later, if you decide to grow your network, this future-ready router expands by adding any Linksys mesh-compatible products.

### Features and benefits

- **More Capacity to More Devices**  
WiFi 6 sends and receives multiple streams of data simultaneously, providing up to 4x more capacity than WiFi 5 to handle every mobile, streaming, gaming, and smart home device on your network.
- **Bye Bye Dead Zones**  
Powered by Intelligent Mesh technology that adapts to your WiFi needs, your devices will always have a full-strength signal throughout your entire home.
- **Minimizes WiFi Congestion**  
Eliminate interference from neighboring networks with advanced WiFi 6 technology that can isolate your network, reduce congestion, and deliver the strongest, clearest WiFi signal available.
- **Smarter Security**  
With automatic firmware updates, Parental Controls, and separate guest access, your network will always remain safe, secure, and up to date.
- **100% Backward-Compatible**  
Works with all existing WiFi enabled devices from smartphones, tablets, laptops, smart home devices, streaming devices, and more.
- **Easy Setup and Control**  
The Linksys app makes it simple to set up, lets you access your network from anywhere, and view or prioritize which connected devices are using the most WiFi.

Linksys App

## What's Inside

- Linksys Mesh WiFi 6 Router, MR7350
- Quick Start Guide
- Ethernet Cable
- Power Adapter
- Regulatory and Warranty Documentation

## Tech Specs:

WiFi AX1800, 574 Mbps (2.4 GHz Band)  
1201 Mbps (5 GHz Band)  
IEEE 802.11a/b/g/n/ac/ax  
Linksys Advanced Beamforming technology  
Linksys Intelligent Mesh technology

### Processor:

1.2 GHz Quad-Core

### Antennas for Expanded Coverage:

Two dual-band external adjustable (non-detachable) antennas providing 4 simultaneous streams

### Wired Connectivity:

5 Gigabit Ethernet Ports:  
1x WAN  
4x LAN  
1x USB 3.0 Port

### Security:

WPA2-Personal, WPA3-Personal, WPA3/WPA2-Personal Mixed

### Dimensions:

(W) 204.9 mm x (D) 149.8 mm x (H) 140.8 mm (antennas up)

### Easy setup and network control with the Linksys app

Specifications are subject to change without notice. Maximum performance derived from IEEE Standard 802.11 specifications. Actual performance may vary, including lower wireless network capacity, data throughput rate, range, and coverage. Range specifications are based on performance test results under normal use case conditions. Actual data throughput and range depend upon many factors, conditions and variables, including building materials and construction, volume of network traffic, mix of wireless products used, interference, wireless obstructions and other adverse conditions. Actual data throughput will be lower than specified and may depend on mix of wireless products used and external factors. Wireless coverage claims are used only as reference and are not guaranteed, as each wireless network is unique.

An active, customer-purchased Internet Service Provider broadband account is required for connection of this router and other connected computers and devices to the Internet. Number of connected devices is based on lab test results. Some devices may require additional wireless adapters that match this product's maximum Wi-Fi standard or an Ethernet cable to connect to this router.
