

UNDERSEAT AMPLIFIER MOUNTING BRACKET

FOR FORD BRONCO 2021+

Built tough and made specifically for Ford Bronco, this amplifier mounting bracket makes it easy to mount select Audio Control, Stinger, Phoenix Gold or other amplifier under the seat in your Bronco.

Designed for Bronco

Designed to withstand harsh outside elements including water, dirt, dust and debris.

Better Performance

Add aftermarket amplifiers to upgrade your sound system.

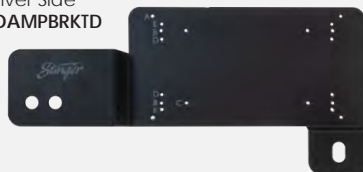

Perfect Fit

Engineered to fit the Bronco seat mounting bolts.

Features:

- Fits 2021+ Ford Bronco
- Predrilled and threaded amplifier mounting holes with supplied hardware simplifies amplifier installation for select AudioControl, Phoenix Gold, and Stinger amplifiers
- Can be custom drilled to universally mount other amplifiers or Jeep accessories under the seat
- Made with 16-gauge corrosion-resistant steel with a corrosion-resistant powder coating to withstand harsh elements and prevent rusting
- Uses the legs of the seat to secure the bracket into position
- Lifetime Warranty
