

# LUCIDCAM

## The First True 3D VR Camera

We believe in a world where everyone has access to experiences of the few, where our ability to see the extraordinary is not limited distance, physical ability, savings, or the courage of adventure.

Lucidcam is a **stereoscopic 3D** camera that captures the world as you see it and hear it. The 180° wide-angle lenses enable an activeview and spacial audio enhances every experience.
