

Warranty

Each Mujjo product carries a 2 years limited factory warranty. The guarantee comes into effect from the date of delivery. Any and all necessary work to be done on the Mujjo will be done by Mujjo or its authorized agents. Any parts removed from any Mujjo unit become property of Mujjo. The repair and replacement of a Mujjo product under the factory warrantee does not compromise or extend the warranty period. The guarantee provides benefits which are additional too and do not affect your right as a consumer. Before any work can be carried out on a Mujjo unit, a proof of purchase will be requested. Without this proof, any work done will be chargeable at standard rates.

All Mujjo products are fully guaranteed against defects in materials or workmanship. Our guarantee does not cover product damages that may have resulted from normal wear and tear, accidental damage caused by user, faults as a result of wilful or negligent operation, or any other handling. Any repairs or alterations carried out by a 3rd party, other than Mujjo accredited parties or its authorized agents are not supported by Mujjo. Additionally, the warranty does not cover damage to your device as a result of the use of any Mujjo product.

Our cases are designed with impact resistance in mind. Clearly we offer different levels of protection for your device. We want to help you protect it. Bottom line, any time a device is dropped, even from the smallest of heights, there is risk of damage. There is not a case on the market, from any case manufacturer, that can guarantee you 100% protection.
