

PCAM-110

1/4" CMOS BACKUP CAMERA FOR LIP MOUNT OR TAILGATE HANDLE WITH PARKING LINES

This versatile vehicle blind spot backup camera can mount in lip, tailgate, or van door locations. Equipped with parking lines for extra security and guidance while reversing.

Durable, water resistant, 1/4" CMOS and simple to install. Mounted on a lip or tailgate, it provides a clear, consistent view of your surroundings.

Key Features:

- ▶ Sensor Type: 1/4" CMOS
- ▶ Min. Illumination (LUX): 0.5
- ▶ Viewing Angle: 170°
- ▶ Water/debris-proof Rating: IP67
- ▶ Parking Lines: Selectable
- ▶ Image (Mirrored / Non-mirrored): Mirrored

Backup Camera Mounting Options

PCAM-110 can be lip mounted as a reverse facing camera on a horizontal surface. The image control wires allow the installer to select the appropriate view of the camera for mounting the camera on a vertical surface facing down.
