Peace of Mind Starts Here

Stay connected to what matters most with the newest Hubble Connected innovation, Hubble Guardian Cam. This sleek, wearable device allows you to track your baby's heart rate, oxygen level, body temperature change, and movement from their compatible smart device. Guardian Cam is designed with a soft fabric strap that is easily adjustable to provide a comfortable and secure fit on your little one's ankle. When it is time to charge, easily remove Hubble Guardian Cam and place it on the charging dock. While tracking your baby's metrics, watch them in HD with the complimentary baby unit camera. Digitally pan, tilt, and zoom to keep your little one in sight, or soothe them to sleep with the preinstalled 7-color night light & sleep trainer. Speak to them using two-way talk, or put them at ease with our collection of preloaded nature sounds, lullabies, and bedside stories. Control of these features and more on the HubbleClub by Hubble Connected app.

Hubble Guardian Cam. Peace of Mind Starts Here.

What's in the box?

Guardian Cam is not a medical device.

It is not intended to diagnose, treat, cure, or alleviate any disease or health condition, including, but not limited to, Sudden Infant Death Syndrome (SIDS). False positive or false negative readings about your baby's patterns are a potential risk.

This product is only intended to assist you in tracking your baby's wellbeing and is not intended to replace you as a caregiver. You are responsible for the health and wellbeing of your baby and should follow safe sleep, health, and care guidelines.

This product is not FDA approved.

To obtain optimal and safe user experience, please carefully read, understand, and follow all instructions and warnings prior to use. Also, read and follow recommendations from the American Academy of Pediatrics, including Safe Sleep guidelines found at www.healthychildren.org.
