Specifications

Model Number	BI-B5
Cell Capacity	10000mAh x2(20000mAh)
Battery Capacity	20000mAh/74Wh/3.7V
Rated Capacity	13900mAh(5V)/6900mAh(9V)/5300mAh(12V)
Input	IN: 5V \Rightarrow 3A 9V \Rightarrow 2.22A 20W(MAX)
Output	OUT: 5V \Rightarrow 3A 9V \Rightarrow 2.22A 12V \Rightarrow 1.5A 20W(MAX) OUT1/OUT2: 5V \Rightarrow 3A 9V \Rightarrow 2A 12V \Rightarrow 1.5A 18W(MAX) OUT+OUT1: 15W(MAX) OUT+OUT2: 15W(MAX) OUT1+OUT2: 15W(MAX) Total(OUT+OUT1+OUT2): 15W(MAX)
Battery Type	Lithium Battery
Size	5.3*2.8*1.0in / 13.4*7.1*2.5cm
Weight	12.8oz / 365g
Fast Charging Protocols	PD3.0, PD2.0, QC4.0+, QC4.0, QC3.0, QC2.0, PPS, AFC, etc.
Limited Power Source

WARNINGS

Operating Conditions:
Ambient Operating Temperature: 10 - 40°C / 50 - 104°F
Storage & Transportation Temperature: -10 - 50°C / 14 - 122°F
Altitude: Not higher than 2000m / 6562ft (air pressure not lower than 80kPa)

WARNING:
1. Keep the product away from direct sunlight, fire, hot ovens, hot surfaces, or extremely low air pressure environments to prevent the risk of explosion, bulging, or leakage of flammable liquid or gas.
2. Avoid disassembling, crushing, puncturing, replacing batteries, dropping, or cutting the product to prevent fire, explosion or leakage of flammable liquids or gases.
3. Do not place the product on a bed, under bedding, or in any airtight environment to prevent overheating, which may cause burns or deformation.
4. Using a non-manufacturer-approved power supply or charging cable may pose a risk of fire, explosion, or overheating.
5. Keep the product away from hazardous chemicals or cleaning agents. Do not immerse it in water or store it in a humid environment.
6. To maintain battery performance, charge and discharge the product at least once every three months.
7. If the product exhibits abnormal heat, deformation, swelling, or emits an unusual odor, stop using it immediately and contact a qualified recycling facility for proper disposal.

FCC Warning:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The product is equipped with an intelligent temperature management system: When the output power exceeds 15W and the temperature surpasses the preset safety threshold, the device may reduce the output power to 15W after 10 minutes. This protection mechanism complies with the IEC 62368-1 international safety standard.

IMPORTANT SAFETY INSTRUCTION

WARNING—When using this product, basic precautions should always be followed, including the following:
a) Read all the instructions before using the product.
b) To reduce the risk of injury, close supervision is necessary when the product is used near children.
c) Do not put fingers or hands into the product.
d) Do not expose power bank to rain or snow.
e) Do not expose power bank to heat or fire. Do not store in direct sunlight or in a vehicle.
f) Use of a power supply or charger not recommended or sold by power bank manufacturer may result in a risk of fire or injury to persons.
g) Do not use the power bank in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury to persons.
h) Do not use the power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
i) Do not disassemble the power bank. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury to persons.
j) Do not expose a power bank to fire or excessive temperature. Exposure to fire or temperature above 40°C may cause explosion. The temperature of 40°C can be replaced by the temperature of 104°F.
k) Having servicing performed by a qualified service or repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
l) Switch off the power bank when not in use.
