

SEADASH Universal Marine 3" Radio Dash Kit

Easily add a 3-inch gauge-style aftermarket radio, even if the current opening is a single DIN rectangle, without having to modify the console in any way, and of course they also work perfectly with Stinger's new SPXM1 Radio.

Constructed of thick, no-fade ASA plastic to withstand weather, shock, scratches and more.

Available in Black or White

Available in white (SEADASH3W) and black (SEADASH3B) featuring OEM grade ASTM-G154-16 certified UV protected ABS and stainless hardware for a multitude of installation configurations.
