

MI-2762

# Dual Monitor Mount with 2 x 3.0 USB Ports

Mount-It! MI-2762 is the ultimate dual monitor desk mount. It comes with full motion capabilities to enhance the use of dual computer monitors.

Dual monitors are ideal for increasing your productivity as they display twice the information without having to switch between applications. However, two large monitors can take up much of the desktop space. With this dual arm monitor desk mount, you can elevate both monitors to open up tabletop space, while also improving your posture. Poor ergonomics with incorrect monitor height and angle can result in back and neck pain.

- VESA 75x75 and 100x100 compatible.
- Fits all monitor brands with VESA patterns.
- Monitor sizes 19, 20, 21, 22, 24, 25, 27, 28, 29, 30 and 32 inches.
- 2 x USB 3.0 ports for easy connection of your devices.
- Mechanical spring arms offer height adjustment of 11.5 inches.
- Spring tension is adjustable to suit the weight of your monitors.
- Weight capacity: 4.4 to 17.6 lbs for each arm
- Tilt: 90 degrees up / 90 degrees down
- Swivel: 360 degrees at two joints and 180 degrees at one joint
- Rotate: 360 degree (between landscape and portrait modes)
- Desktop thickness: 0.39-3.3 inches

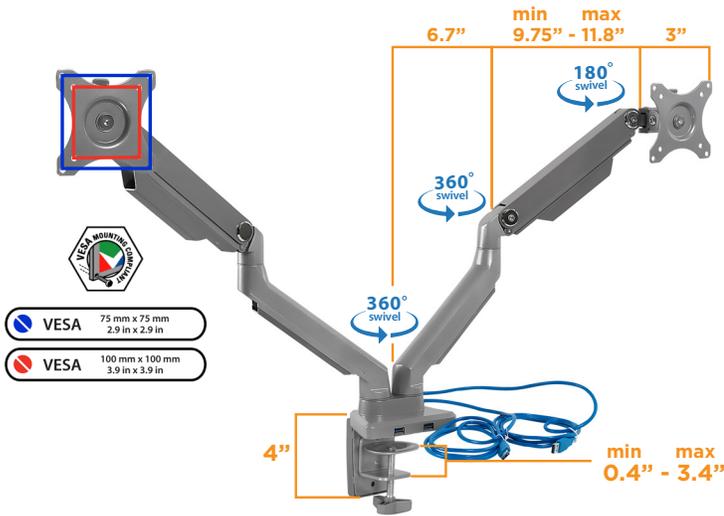

**A BETTER VIEWING EXPERIENCE.** Tilt, swivel, rotate.

**EASY INSTALLATION.** All hardware included.

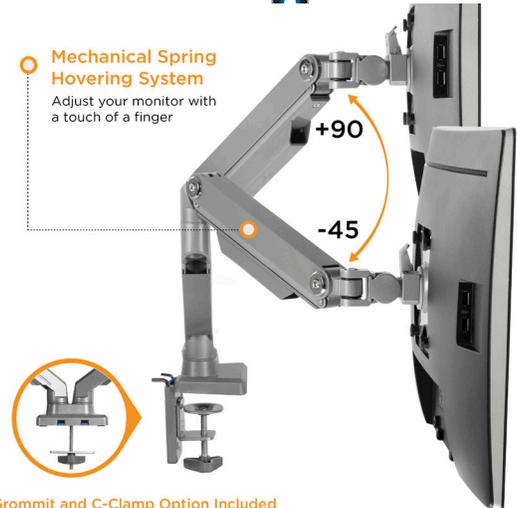

**PREMIUM QUALITY.** Built to last.
