# Arthritis Gloves

## Sizing Guide

To measure for size, with your hand open measure across the palm of your hand right below your fingers.

	SMALL/MEDIUM	LARGE/XL
INCHES	2.1" - 3.1"	3.2" - 4.4"
CENTIMETERS	5.3 - 7.9	8.1 - 11.2

Compression products work best when they fit snugly. If you are between sizes we always recommend going with the smaller size for the most effectiveness.
