FA-EBA1

External battery adaptor for flash

Enjoy high-speed continuous shooting with your external flash when using the FA-EBA1 External Battery Adaptor. Get faster recycle time of less than 0.6 seconds¹ and longer battery life for over 660 continuous flashes¹. Designed for maximum durability for professional reliability with a battery magazine system that allows fast battery replacement.

Key Features

High-speed continuous shooting

High-speed continuous shooting is possible as the external battery pack enables fast recycle times of less than 0.6 seconds¹, providing the speed that professionals need.

Over 660 continuous flashes¹

Over 660 continuous flashes¹ can be produced with fully charged batteries, providing the endurance needed for demanding professional applications.

Fast battery replacement

A battery magazine system allows fast battery replacement and can be inserted in any orientation, minimizing fumbling and lost time. The battery magazine can hold up to eight AA batteries for maximum performance, but can also operate with as few as four AA batteries. When in use, the FA-EBA1 takes priority so that minimal demand is placed on the internal batteries of the HVL-F60RM flash.

Professional reliability

To meet professional use, reliability is enhanced by carefully designed cable stress relief for maximum durability. In addition, seals around enclosure joints and a rubber magazine lid gasket minimize the possibility of dust or moisture intrusion.²

Easy to mount

The supplied protective pouch allows for easy and convenient mounting to a tripod leg and adds additional protection to the unit.

Specifications

Colors	
Color	Black
Operating Instruction	
Language	English, French, Spanish, German, Dutch, Swedish, Italian, Portuguese, Danish, Finnish, Polish, Russian, Ukrainian, Greek, Czech, Slovak, Hungarian, Romanian, Traditional Chinese, Arabic, Korean
