Delivering Advanced Protection with a Tender Touch

Introducing the Hubble SkyVision AI Smart Baby Monitor, a state-of-the-art system delivering safety, connectivity, and sleep. With the Adjustable Crib Mount, parents can take advantage of NEW AI features like Covered Face Alert, Enhanced Sleep Analytics, Eye Wellness Tracker, and Precious Moments, offering deep insights into your baby's wellbeing. Leverage the enhanced AI sleep analytics, Sleep Trainer function, built-in 7-color night light & soothing sounds to create personalized sleep & wake routines to promote healthy sleep patterns for baby. Stay connected with your child from anywhere via HD remote access with the FREE HubbleClub app. Use remote pan, tilt, and zoom to monitor the entire nursery, two-way communication to comfort your baby, and the room temperature sensor to ensures a perfect sleep environment. Infrared Night Vision provides clarity without disturbing your baby's sleep.

Hubble Connected is the winner of the Baby Innovation - Baby Company of the Year Award.

Hubble SkyVision AI. Delivering Advanced Protection with a Tender Touch.

Features

NEW Skyvision AI monitoring features:

- **Covered Face Alert**

Ensures your baby's safety by notifying you when they are not on their back, attempting to roll over, or when their face is covered.

- **Enhanced Sleep Analytics**

Our baby sleep analytics feature shows your baby's sleep patterns including the duration and quality of sleep, the number and duration of awakenings, time spent in each posture while sleeping, the number of caregiver visits and more.

- **Baby Eye Wellness Tracker**

Hubble's AI algorithm uses computer vision technology to help you stay informed of your baby's eye wellness.

- **Precious Baby Moments**

Our AI powered precious moments feature captures your baby's cute expressions and funny faces through the camera feed and creates a timeline for easy viewing and sharing.
