SYMBOL LEGEND

IMPORTANT: Since there are different versions of each product based on your region, please make sure you are using the correct set of instructions. The part numbers on the following page should match the numbers on your product packaging.

IMPORTANT: Due to the nature of cut aluminum profiles, some metal shavings may remain despite our thorough QA cleaning process. We recommend opening boxes and packaging on a hard surface.

NOTE: Some screws and washers may be pre-installed. These are included in the parts list and will need to be loosened and reattached according to the instructions.

Recommended:
Two people for the task

Safety glasses required

Tighten the hardware

Attention/Priority needed

Keep the hardware loose
for adjustments

Reserve for the next step

Make the necessary adjustments

Mirrored components
(same on both sides)

Break the tab off the corner bracket

Scan here for
video instructions.

These brackets come with guide tabs on the rear. These tabs help align the brackets to the profile when fitted in the same orientation as the profile. When used in the alternate orientation, these tabs are designed to snap off for a flush mount against the profile.
