Highlights

Unique OneBlade Technology

The Philips Norelco OneBlade has a revolutionary new technology designed for men who wear facial styles and grow beards. It can trim, edge and shave any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier on your skin. At the same time, its shaving technology features a fast-moving cutter (200x per second). This unique combination gives you a shave that's both

efficient and comfortable – even on longer hairs. OneBlade doesn't shave as close as a traditional blade – so your skin stays comfortable.

Durable OneBlade

The blades are designed for lasting performance. For optimal performance, you will only need to replace each blade every 4 months*. Replacement is easy and hassle free.
