

ClassicFlame GROUNDBREAKING 3D FLAME EFFECT

ClassicFlame GROUNDBREAKING 3D FLAME EFFECT

Patent pending technology, using multi-layered flame effects to create a fire with depth and dimension.

Advanced features available in all ClassicFlame fireplaces:

Five adjustable brightness settings allow the user to pick the perfect brightness for their environment and ambiance.

Five flame speed settings allow you to adjust from a fast roaring fire down to a gentle flickering flame.

Groundbreaking 3D flame effect technology offers five color options. Campfire, Midnight Fire, Spectrafire™, Sapphire, Amethyst.

Infrared Quartz Technology

Harness the energy and money saving power of zone heating. Infrared quartz technology provides supplemental heat for rooms up to 100 square meters.
