### ELLIPAL Seed Phrase Steel Manual

ELLIPAL Seed Phrase Steel is used to store the seed phrase that is created in an account when a cryptocurrency wallet is set up.

Keeping seed phrases safe is considered the most important aspect of keeping your cryptocurrency safe. It's crucial to store your seed phrase safely.

#### Detailed instructions:

- a. Follow the diagram to set up the seed phrase in your ELLIPAL Seed Phrase Steel. Insert the first 4 letters of the seed phrase in sequence.
- b. Letter blocks are included in the bottom layer of the package.
- c. Each slot of the Phrase Steel Steel can hold 4 letters per BIP39 word. The first 4 letters can represent an entire word if the word has more than 4 letters. If the word has fewer than 4 letters, insert the backside of the letter block as a placeholder.
- d. The letter block for **b** and **q**, **d** and **p**, and **n** and **u** are interchangeable.
