

QUICK SETUP GUIDE

FM Transmitter with Lightning™ Connector

NS-MA5FMT / NS-MA5FMT-C / NS-MA5FMT2-C

PACKAGE CONTENTS

- FM transmitter
- *Quick Setup Guide*

FEATURES

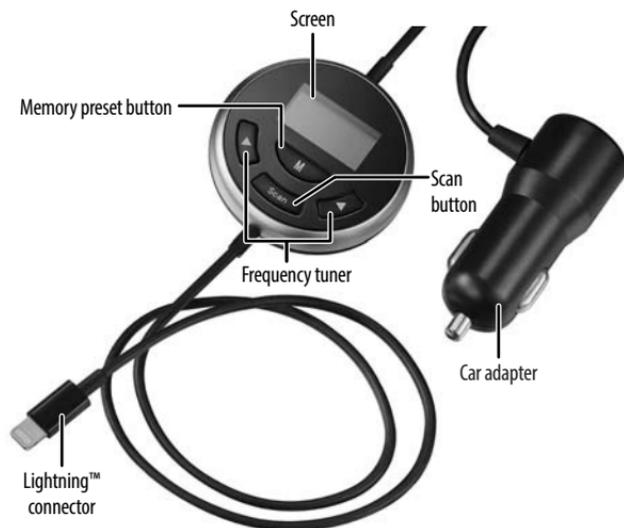

- Lightning™ connector works with your iPhone, iPad, and iPod
- Plays music from your iPhone, iPad, or iPod on your car's FM radio
- Auto-scan quickly finds unused stations
- Buttons easily control your transmitter

SETTING UP YOUR TRANSMITTER

- 1 Plug the car adapter into your vehicle's cigarette lighter receptacle. Your transmitter turns on.
- 2 Set the desired volume level on your iOS device.
Note: Volume level cannot be adjusted once your iOS device has been plugged into the Lightning connector.
- 3 Connect the Lightning connector to your iPhone, iPad, or iPod.

TUNING YOUR TRANSMITTER

You can tune your transmitter manually, automatically, or with saved presets.

Manually tuning your transmitter

- 1 Tune your vehicle's radio to a weak or unused FM frequency. You should hear static.
- 2 Press and hold **M** (on the transmitter), then press **-** or **+** to tune your transmitter to the same frequency as your radio. The frequency is shown on the screen.

Automatically tuning your transmitter

- 1 Press and hold **Scan**. Your transmitter automatically selects a weak or unused frequency.
- 2 Tune your radio to the same frequency as your transmitter (read the frequency off the display screen).

Using memory presets

- Press the **◀** or **▶** button to choose a previously saved memory preset. See "SAVING MEMORY PRESETS" for more information.

SAVING MEMORY PRESETS

- 1 Press **◀** or **▶** button to the Memory Preset you want (M1, M2, M3).
- 2 Press **M** to enter manual tuning mode and see the Memory number flashing.
- 3 Press **◀** or **▶** button to tune the transmitter to the frequency that you want to save.
- 4 Press **M** to save the frequency to the corresponding number.

USING YOUR TRANSMITTER

- Play music on your iPhone, iPad, or iPod, then adjust your radio's volume.

TROUBLESHOOTING

Audio has static

- Make sure that your radio is tuned to an FM radio frequency.
- Make sure that your radio and transmitter are tuned to the same frequency.
- Try using a different FM radio frequency.

No or low audio

- Make sure that the cables are correctly and securely connected to your vehicle's cigarette lighter receptacle and audio device.
- Make sure that your radio and transmitter are tuned to the same frequency.
- Turn up the volume of your audio device or radio.
- Try using a different FM radio frequency.

SPECIFICATIONS

Frequency range	88.1 - 107.9 MHz (U.S.)
Cable length	39.37 in. (1 m)
Power charging output	12 watts (5V@2.4 A)

LEGAL NOTICES

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

RSS-Gen & RSS-210 statement:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RSS-102 Statement:

This equipment complies with Industry Canada radiation exposure limits set forth for an uncontrolled environment. Cet équipement est conforme à l'exposition aux rayonnements Industry Canada limites établies pour un environnement non contrôlé.

ONE-YEAR LIMITED WARRANTY
