### High-Powered Wireless Bluetooth Speaker®

Kickstart every party with this EXTRA BASS™ wireless Bluetooth® and NFC speaker system<sup>2</sup> that pumps up any gathering with deep, punching bass, club-like LED lighting. Stream and control great sounding music from your smartphone and even add extra wireless speakers to the mix. It's ready to hit the party scene with bass that hits<sup>1</sup>.

#### Bullets

---

- Feel the powerful, clear sound of EXTRA BASS™
- Easily connect and enjoy music from your smartphone, tablet or other Bluetooth device<sup>2</sup>.
- Switch up lighting patterns or turn on DJ sound effects<sup>1</sup>
- Connect and add more speakers with Party Chain
- Browse, play and control your music with the SongPal app<sup>1</sup>
- Stand it up or lay it down with a flexible, two-way design
- Add to a TV or other equipment with audio input/output
- Increase the clarity and quality of what you hear with ClearAudio+

#### Features

---

##### Feel the power of EXTRA BASS

Made for today's heavy-hitting bass lines and beats, EXTRA BASS™ technology delivers powerful, clear bass sound where it's hardest to find—in portable speakers. The result is a full, deep, resonating sound that's perfect for EDM, Hip-Hop and other music. So push the button, crank it up and let the bass drop.

##### Easily connect and enjoy music

Enjoy easy, one-touch connectivity and music streaming with NFC. No NFC? No problem. Connect via Bluetooth and you're ready to go<sup>2</sup>.

##### Switch up lighting patterns or turn on DJ sound effects<sup>1</sup>

Pump up the atmosphere with club-like line and speaker light with strobe flash. Synchronizing with the rhythm of the beat, the power and speed of the light display matches the musical mood and atmosphere. Even turn on DJ sound effects to add to the experience.

##### Connect and add more speakers with Party Chain

Add extra power to your sound system. Connect two speakers together wirelessly or connect more than two speakers together with wires for a higher sound output. Then, activate one device to be the 'Party Host' and sync music with the other systems in the chain.

##### Customize and control everything from your smartphone with SongPal

Have fun with your party settings from the dance floor with the SongPal app<sup>1</sup>. Simply download onto your smartphone and enjoy wireless control of all your party settings. Switch up lighting patterns, or activate DJ effects and EQ settings to pump up the atmosphere. You can also select your favorite playlists from USB<sup>3</sup> and cue the next song, without being tied to the DJ booth.

##### Stand it up or lay it down

A flexible two-way setup gives you great sound, wherever you place the system. Set it up horizontally for a classic boombox feel, or flip it upright if you're short on space. A built-in sensor optimizes how sound is processed to stereo sound, whichever setup you choose.

##### Add to a TV or other equipment

Hook up a TV, speaker or other audio-video equipment with audio input/output to give your home entertainment an audio boost.

##### Increase the clarity and quality of what you hear

# SONY

Unique to Sony, ClearAudio+ automatically adjusts sound settings for an enriching listening experience. By bringing together expertise in digital signal processing technologies, ClearAudio+ is able to optimize audio to deliver a consistently clear, high-quality sound, whether you're enjoying music, movies or games.
