

# ASSEMBLY

## RESPAWN 800

PACKAGE CONTENTS

1. Lay out and identify components on a nearby table or flat surface.
2. Place base (C) on flat surface.
3. Insert gas cylinder (F) into center of base (C). Place base assembly on the floor.

4. Locate seat mechanism (E) and center it over the screw holes in the bottom seat. Tilt tensioner will be at the top toward the front of the seat.
5. Locate 2 screws (H) for the front holes and 2 screws (G) for the rear holes of seat mechanism (E). Start at the top and work around, tightening the screws thoroughly in all 4 locations with the Allen wrench (K).

6. Take completed seat assembly and place atop the gas cylinder (F) from completed base assembly in Step 1.

7. Locate armrests (D), there is a right arm and a left arm. Attach armrest to the seat side using 2 screws (I) with Allen wrench (K). REPEAT other side.

DO NOT FULLY TIGHTEN until Step 9.

8. Locate backrest (A) and tilt 45 degrees forward between the armrest brackets. Use 1 screw (I) to attach armrest bracket to backrest with Allen wrench (K). REPEAT other side.

DO NOT FULLY TIGHTEN until Step 9.

9. Raise the backrest upright and use 1 screw (I) to attach top hole in armrest bracket to backrest with Allen wrench (K). REPEAT other side.

FULLY TIGHTEN ALL SCREWS at this step.

10. Locate 4 screw cover caps (J) and place over screw holes on arm bracket. REPEAT other side.

11. Last step is to sit in your new chair to fully secure the gas cylinder to the seat assembly and make sure chair is fully functional.

**YOU'RE FINISHED, ENJOY!**

# USAGE INFO

## RESPAWN 800

### SAFETY INFORMATION

### GENERAL CARE AND MAINTENANCE

- ✓ Extended exposure to direct sunlight can cause the chair material to crack and color to fade.
- ✓ Keep your pets off of the chair. Their claws and teeth may damage the chair material.
- ✓ Sweat may become an issue as the moisture and oils can damage the chair material. Follow the cleaning guide and wipe the chair clean every so often.
- ✓ Follow care and proper use. Misuse can lead to damage, not just to the chair but to you as well.

### ATTENTION

Make sure all bolts and screws are fully tightened before using chair. Lubricate all moving parts and tighten all bolts/screws every 6 month or whenever needed.

### ⚠WARNING

To ensure proper assembly, follow all steps and use all parts. Failure to follow this warning can result in serious injury to yourself or others.

## CONTROLS

### 360° SWIVEL

With 360 degrees of swivel, the chair operates in any position.

### TILT TENSION RECLINE

Hold the knob under the center of the seat. To INCREASE TENSION: twist the knob clockwise. To DECREASE TENSION: twist the knob counterclockwise.

### FLIP-UP ARMRESTS

Pull armrests up to pivot and flip out of the way.

## CLEANING

Use a lint-free microfiber cloth with a mild soap-and-water solution to clean the chair surfaces.

Gently wipe all areas to remove any surface dust.
