MODEL PART DIAGRAM

WHERE TO USE

- Position the humidifier at least 12 in / 30 cm away from walls and appliances to prevent them from getting wet.
- Place the humidifier on a table or desk. Do not place it directly on the floor or carpet.
- DO NOT place the unit against walls or objects or in areas with poor air circulation. Doing so may result in improper readings produced by the built-in sensor.
- If used in a closed (sealed) room without proper ventilation and no heat exchange with outside air, water collection can occur when the humidified air touches the cold surface. In such cases, it is recommended to use in a lower mist level.

2

PRODUCT WARRANTY

The terms of the warranty are as follows:

- The product is manufactured under stringent quality control and inspections.
- The warranty will be voided if product failure is a result of negligence or misuse by the consumer. Shipping and service fees may be incurred even during the warranty period.
- A proof of purchase must be presented upon claiming a Product Warranty.
- Store the proof of purchase in a safe place or register your product on winixamerica.com to upload your proof of purchase.
- This warranty is valid only in the USA and Canada. For more information visit <https://www.winixamerica.com/terms-and-conditions/>

Benefits of WINIX Pre-Soaked Aroma Pads:

- New design and soothing relief: WINIX Waterless Vaporizer Scents Pads are non-medicated refill pads designed with Polymer PP to release soothing relief vapors to enhance your humidification experience and to help provide added comfort.
- Provides long-lasting comfort per pad: Each pre-soaked aroma pad offers 48 hours of long-lasting comfort.
- No spills or messy refilling: These refill pads are easy to use and install, preventing messy spills and doing away with the need for constant refilling.
- These pads are designed for use with WINIX Ultrasonic humidifier products: L100, L200, L201.
- Humidifiers for bedrooms, desks, or tables: Our humidifier helps add comfort where you are.
- Never use water softening additives in your humidifier.

11

CONTROL PANEL

01. Power Button

- Plug unit into a 120-volt AC electrical outlet.
- Press the power button to turn unit on.
- If there is no water inside, the power button does not work.

02. Warm Mist Setting

- To change the mist temperature from cool to warm mist, press the warm mist button.
- Warm humidification mode is always OFF and is heated only when the user operates the button.

03. Night Mood Light

- Press the Night Mood Light Display Button once to turn on the Night Mood Light. The light at the bottom of the water tank will turn on, illuminating the tank.
- The brightness of the light can be switched from OFF > 100% > 50% > 20% > OFF > Display light Off.

04. Programmable Auto-Off Timer

- Keep pressing the programmable timer button until the desired timer setting is lit on the display.
- The programmable timer button will cycle through the following settings: 0 hours, 2 hours, 4 hours, 8 hours, and 12 hours. To cancel the timer at any time, press the timer button until 0 hours is shown on the display.

05. Programmable Humidistat

- The default humidistat setting is CO (continuous). The programmable humidistat can be set in 5% increments, from 40% to 60% humidity.
- Manual humidity is set in 40% > 45% > 50% > 55% > 60% > CO order.
- NOTE: When the set humidity level is reached, the humidifier will cycle off until the humidity in the room drops 5% below the set humidity level, then will cycle on until the set humidity level is reached again.

06. Adjustable Mist Level

- Mist adjusts from the lowest output to highest output.
- The corresponding mist level will be lit on the LED indicator.
- Each press will increase by one. Once you reach level 5, it will repeat at level 1.

07. LightCel™ (UV+)

- Displays the operation status of the UV-C LED inside the reservoir.
- UV-C LED power is activated when water is present and deactivated when water is absent.
- NOTE: LightCel™ Technology removes contaminants* present in water, providing a comforting mist for you and your family.
- (*Tested by an independent third-party laboratory. Visit www.winixamerica.com for more details.)

08. Warm Light

- If you select warm humidification, it turns on.
- NOTE: If the water is not enough, the mist may not be generated properly. (This may be a defect in the air hinge or water valve). There should be at least 30 mm of water in the base after removing the water tanks.

09. Timer/Display Light

- Based on the natural humidity level in your home, the temperature of water you use, and the mist level setting you choose, you may experience longer or shorter runtimes.

10. Empty Tank Alarm

- If there is not enough water, the unit will stop and the red LED indicator will continue to blink at the same time.

11. Mist Level Indicator

- Displays the humidity level and goes up one step each time the humidity level button is pressed.

12. 360° Rotating Mist Nozzle

- Rotate the mist nozzle to adjust the mist output direction.

13. Whisper-Quiet Operation

- Quiet operation allows you to sleep easily in a comfortable and quiet environment.

14. Night Mood Light

- A useful light feature is included with the option of an independent Night Mood Light and control light display.
- NOTE: LightCel™ Technology removes contaminants* present in water, providing a comforting mist for you and your family.

15. Auto Shut Off Protection

- When the tank is empty, the unit will shut off automatically.
- The programmable timer button will cycle through the following settings: 0 hours, 2 hours, 4 hours, 8 hours, and 12 hours. To cancel the timer at any time, press the timer button until 0 hours is shown on the display.

16. Demineralization Capsules

- The Winix demineralization capsule will help reduce the potential for white dust, a deposit of minerals left behind from using hard water in your humidifier.

FCC STATEMENTS

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

This device contains license-exempt transmitter(s) / receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

This device may not cause interference.

This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs/recepteurs exempts de licence et conformes aux normes Innovation, Science et Économie (RSS) sans licence de Développement Canada. Le fonctionnement est soumis aux deux conditions suivantes:

cet appareil ne doit pas causer d'interférences nuisibles,

cet appareil doit accepter toute interférence reçue, y compris les interférences pouvant provoquer un fonctionnement non souhaité.

It has a strong odor

Make sure the inside of the humidifier and the water tank is not contaminated.

To reduce the risk of fire or electric shock, do not use this appliance with any solid-state speed control device.

This unit is not intended to be used to preserve documents or art conservation.

Replacing Aroma Pads

- Pre-Soaked Aroma Pads last 48 hours each.

There are two Pre-Soaked Aroma Pad scents: 1 lavender and 1 eucalyptus.

Please don't put any other materials other than Aroma Pads.

4

ULTRASONIC WARM & COOL MIST HUMIDIFICATION

Capacity

• 2 Gallons - 7.5 Liters.

Installation Instructions:

- Open the Water Tank Cap and fill the tank with water up to 'max'.

LightCel™ Technology

- UV-C LED anti-contaminant.

Runtime: Max 120 Hours

- Based on the natural humidity level in your home, the temperature of water you use, and the mist level setting you choose, you may experience longer or shorter runtimes.

NOTE: When the set humidity level is reached, the humidifier will cycle off until the humidity in the room drops 5% below the set humidity level, then will cycle on until the set humidity level is reached again.

Adjustable Mist Level

- Mist adjusts from the lowest output to highest output.
- The corresponding mist level will be lit on the LED indicator.
- Each press will increase by one. Once you reach level 5, it will repeat at level 1.

Empty Tank Alarm

- If there is not enough water, the unit will stop and the red LED indicator will continue to blink at the same time.

Pre-Soaked Aroma Pads & Aroma Pad Tray

- Includes 2 Pre-Soaked Aroma Pads. Use your favorite essential oil to deliver aroma into the air.

Installation Instructions:

- Turn off the humidifier.

Push the Oil Tray at the back of the base and pull it out.

The corresponding mist level will be lit on the display.

Each press will increase by one. Once you reach level 5, it will repeat at level 1.

360° Rotating Mist Nozzle

- Rotate the mist nozzle to adjust the mist output direction.

Whisper-Quiet Operation

- Quiet operation allows you to sleep easily in a comfortable and quiet environment.

Night Mood Light

- Useful light feature is included with the option of an independent Night Mood Light and control light display.

Auto Shut Off Protection

- When the tank is empty, the unit will shut off automatically.
- The programmable timer button will cycle through the following settings: 0 hours, 2 hours, 4 hours, 8 hours, and 12 hours. To cancel the timer at any time, press the timer button until 0 hours is shown on the display.

Demineralization Capsules

- Winix demineralization capsule will help reduce the potential for white dust, a deposit of minerals left behind from using hard water in your humidifier.

5

MAINTENANCE AND CLEANING

Read all instructions before installation and use

- Always place humidifier on a firm, flat surface. A waterproof mat or pad is recommended for under the humidifier. A finished floor may be damaged by water or moisture exposure.
- Do not reach for a unit that has fallen into water. Unplug it immediately.
