**WHY DOCSIS® 3.1 TECHNOLOGY**

- More Speed—supports up to 10Gbps‡
- Increases the uplink speed to the cloud for critical uploads like security camera feeds and photos
- Improves stability and reliability of your Internet connection
- More energy efficient
Beamforming+—For More Reliable Connections

Unlike typical WiFi routers that just blast the WiFi signals in all directions, with Beamforming+ the router & device communicate with each other, so the router can directly beam the WiFi signal to the device. Boosting speed, reliability, and range for both Implicit and Explicit 2.4 & 5GHz WiFi devices, the result is a stronger, faster, more reliable connection that is locked in even when the device is moved around the home.

• WiFi Signal Focus—Focuses signals from the wireless router to WiFi devices like smartphones, tablets & laptops
• Automatic Signal Management—Checks with your device to keep WiFi signal at its optimal strength
• Device Connections—Checks with your device to keep WiFi signal at its optimal strength
• WiFi Coverage—Reduces dead spots, & boosts signal strength
• Implicit & Explicit Beamforming boosts speed, reliability & range for both 2.4 & 5GHz WiFi devices—an industry first

NETGEAR Genie®—Home Networking Simplified

Unlike typical WiFi routers that just blast the WiFi signals in all directions, with Beamforming+ the router & device communicate with each other, so the router can directly beam the WiFi signal to the device. The result is a stronger, faster, more reliable connection that is locked in even when the device is moved around the home.

NETGEAR genie makes getting the most out of your home network fun & easy. NETGEAR genie allows you to easily monitor, connect & control your home network. With NETGEAR genie you can share & stream music or videos, diagnose & repair network issues, set up parental controls & more.

• Network Map—Allow or block access to your network using real-time map of connected devices
• Traffic Meter—Track your Internet data usage
• MyMedia®—Find & play media files in your network
• EZ Mobile Connect—Scan QR code to connect to your home network
• For iPhone®, iPad® or Android® devices
