2

A. Lid

STEP 4:

Make sure the arrow on the seal and on the inside of the lid are facing the same direction to prevent leakage.

A. Lid

**D.** Finger Loop

A D
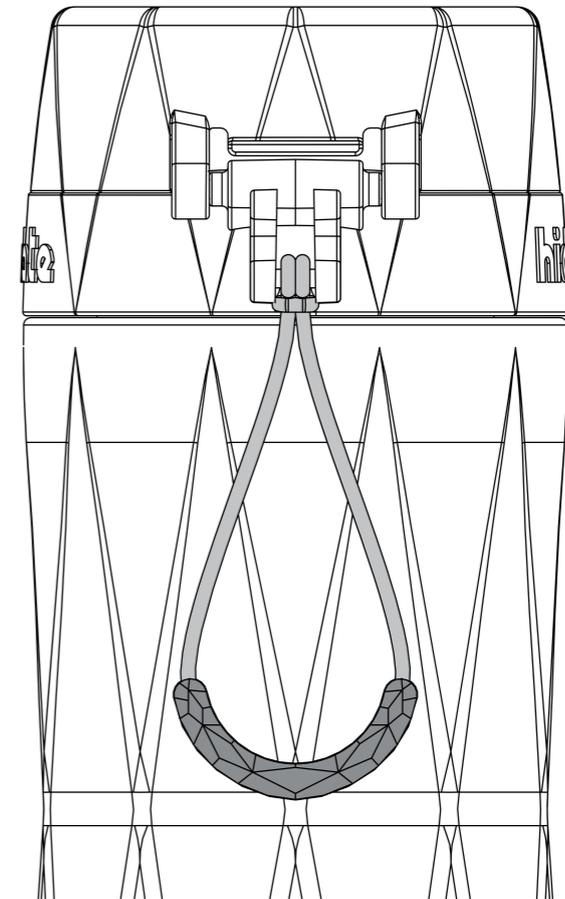

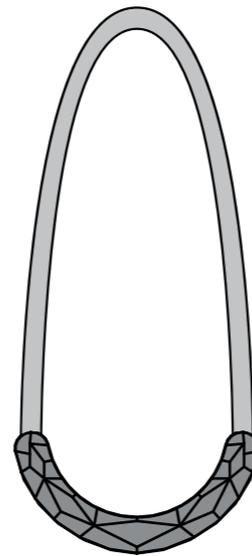

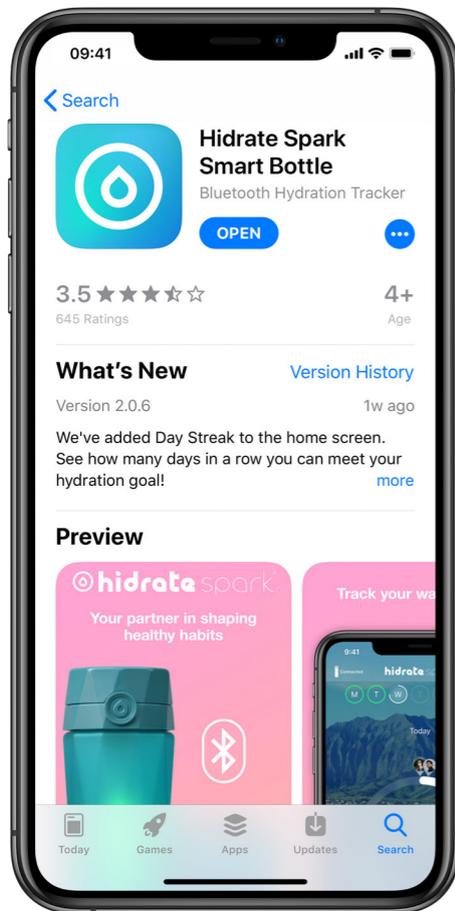

STEP 5:

To attach the finger loop, slide it underneath the metal pin on the back of the lid and loop it through itself.

Mobile Phone

Hidrate Spark
Smart Bottle App

STEP 6:

Download our free Hidrate Spark Smart Water Bottle app from the App Store or Google Play store.

Check that you have an internet connection and your Bluetooth is turned on. Follow the steps in the app to create an account, set parameters for a personalized hydration goal, add your bottle to your profile, and set your push notifications and glow reminders.
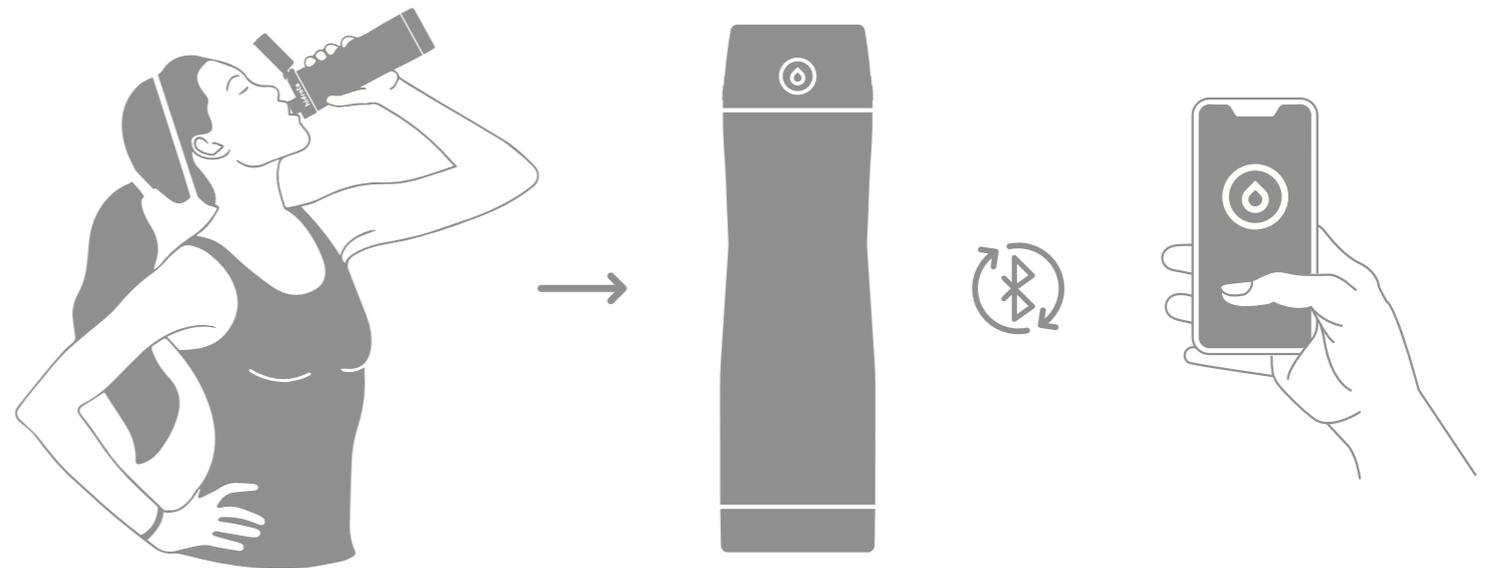

You!

Hidrate Spark 3

Hidrate Spark Smart
Water Bottle App

STEP 7: last step

Set down your bottle after every refill. Remember to sync the app near the bottle each day so your water is tracked correctly.
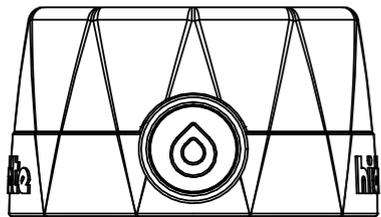

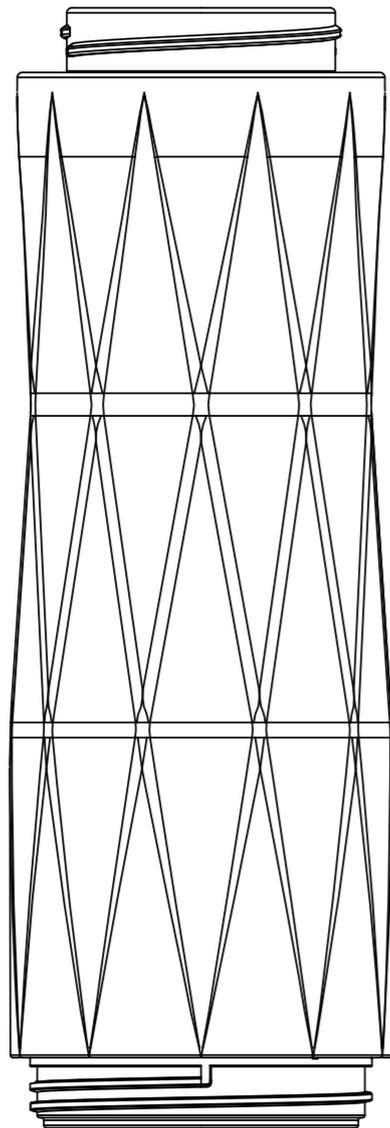

A. Lid

B. Soft Grip Body

F

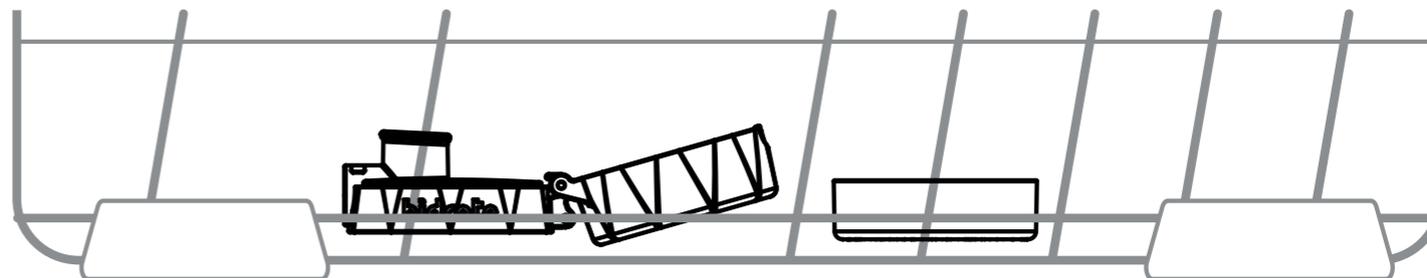

CLEANING INSTRUCTIONS

ALWAYS STORE BOTTLE WITH LID, BOTTOM RING and SENSOR STICK REMOVED to allow parts to dry completely.
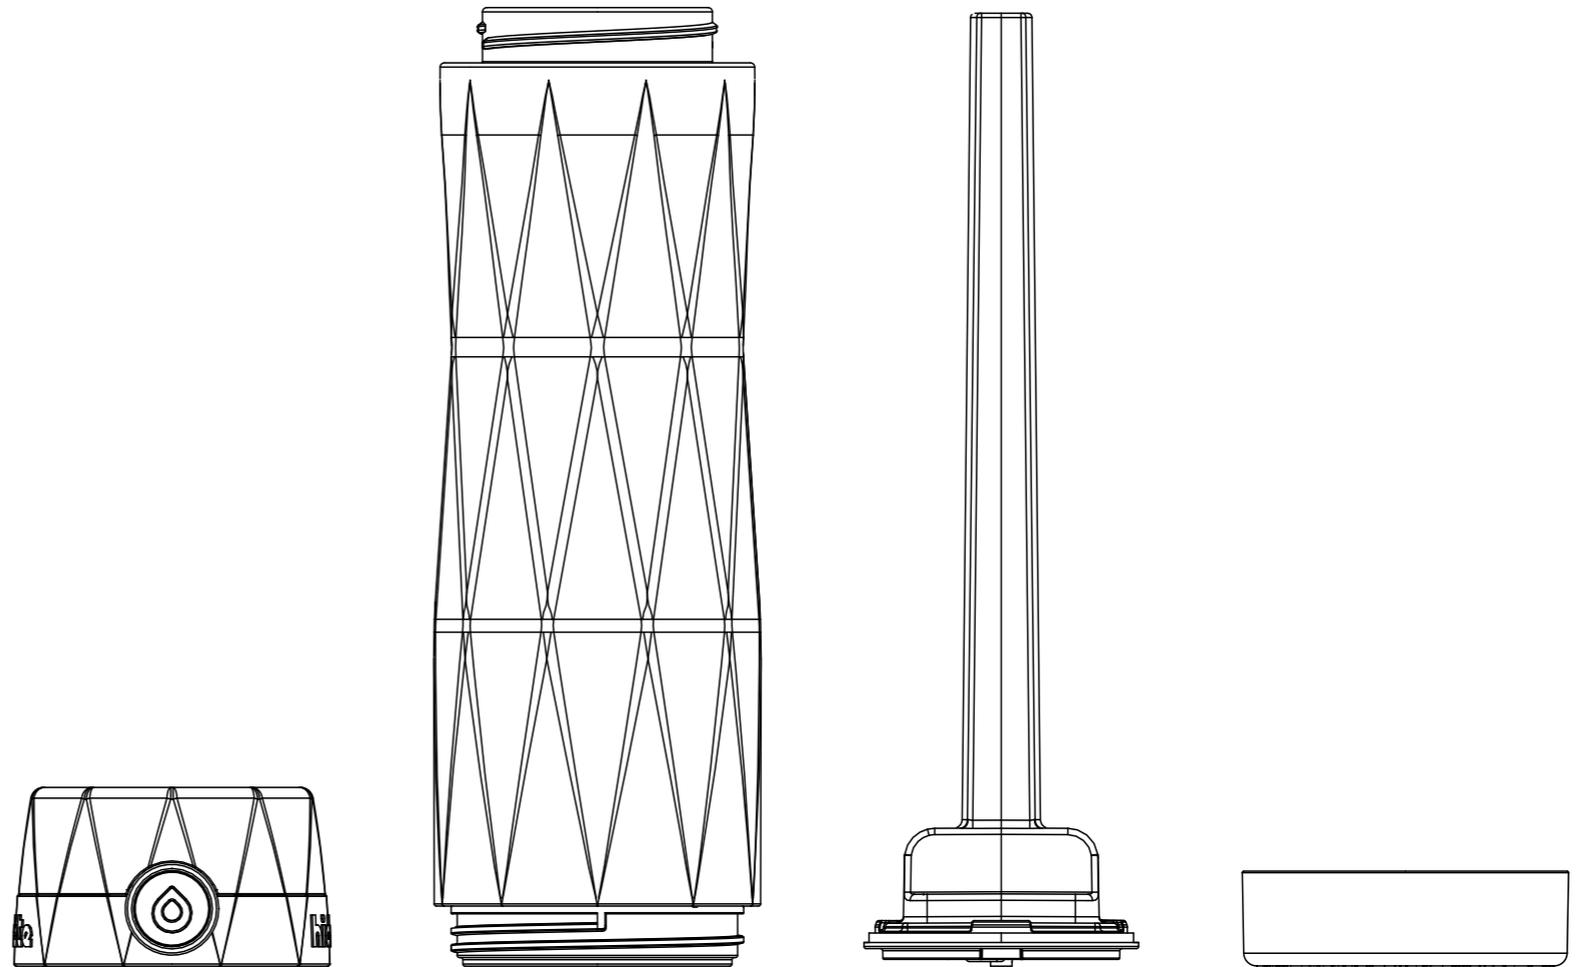

ATTENTION:

!

- Your Hidrate Spark bottle uses one CR2477 Lithium battery. During the battery replacement process these batteries represent choking hazard.

- Product is NOT designed for hot liquids. Use only with cold liquids.

- Adding ice can cause an inaccurate measurement.

- Not for use with carbonated or pulpy beverages.

- Prior to drinking, make sure the lid is properly threaded to the body and screwed on completely.

- DO NOT overfill. Fill liquids to the fill line or below to avoid accidental spilling.

- DO NOT microwave or freeze.

- DO NOT use cleaners containing bleach, chlorine, abrasives and/or harsh chemicals.

- DO NOT continue to use if product is damaged.

- DO NOT carry bottles containing liquid in bags to help prevent accidental opening.
